# NEWS RELEASE

## Occidental Petroleum Announces 2nd Quarter 2018 Results

- Completed low oil price Breakeven Plan ahead of schedule
- Increased dividend for 16<sup>th</sup> consecutive year
- Achieved record earnings in Chemical and Marketing businesses
- Exceeded high end of Permian Resources production guidance at 201,000 BOE per day, a 46 percent year-over-year increase
- \$5 billion additional cash in 2018 versus original plan
  - \$2.6 billion sale of non-core domestic midstream assets
  - \$2.5 billion from outperformance across all three segments
- Allocation of additional cash focused on increasing shareholder returns
  - Share repurchases targeted at over \$2 billion in the next 12 to 18 months
  - \$1.1 billion capital budget increase for high-return, short-cycle oil and gas projects

HOUSTON — August 8, 2018 — Occidental Petroleum Corporation (NYSE:OXY) today announced net income for the second quarter of 2018 of \$848 million, or \$1.10 per diluted share. Earnings for the second quarter of 2018 were adversely impacted by approximately \$90 million, or \$0.12 per diluted share, due to the timing of crude oil liftings in Oman and the non-cash, mark-to-market impact on crude oil volumes.

"With the early completion of our low oil price breakeven plan, outperformance across all three business segments and the expected sale of non-core domestic midstream assets, our priority is to use free cash flow to generate the greatest shareholder return," said President and Chief Executive Officer Vicki Hollub. "We remain committed to our dividend growth, have resumed our share repurchase program and are investing in our high-return Permian assets. Our world-class assets, combined with top-performing wells and takeaway capacity, afford us the unique opportunity to enhance our leadership position in the Permian Basin."

### QUARTERLY RESULTS Oil and Gas

Total average daily production volumes were 639,000 barrels of oil equivalent (BOE) for the second quarter of 2018, compared to 609,000 BOE in the first quarter of 2018. Permian Resources average daily production volumes improved from the prior quarter by 24,000 BOE, or 14 percent, to 201,000 BOE in the second quarter of 2018, due to improved well performance. Compared to the second quarter of 2017, Permian Resources production increased by 46 percent.

International average daily volumes increased by 8,000 BOE in the second quarter of 2018, compared to the first quarter of 2018, due to the successful completion of planned maintenance activities at Al Hosn Gas and Dolphin. The increase in Al Hosn Gas and Dolphin production was partially offset by the decrease in Qatar production for planned maintenance activities in the second quarter of 2018.

Oil and gas pre-tax income for the second quarter of 2018 was \$780 million, compared to \$750 million for the prior quarter. The improvement in second quarter income reflected higher oil and NGL prices as well as higher domestic production volumes, partially offset by lower international volumes due to the timing of crude oil liftings in Oman.

Page 1 of 3

For the second quarter of 2018, average WTI and Brent marker prices were \$67.88 per barrel and \$74.90 per barrel, respectively. Average worldwide realized crude oil prices were \$63.12 per barrel for the second quarter of 2018, an increase of 3 percent compared with the first quarter of 2018. Including the marketing margin from crude oil spreads between Midland and the Gulf Coast, average domestic realized crude oil prices were more than \$65.00 per barrel in the second quarter of 2018, an increase of 7 percent compared to the prior quarter.

### Chemical

The Chemical segment had another quarter of record earnings. Chemical pre-tax income for the second quarter of 2018 was \$317 million, which came in above guidance of \$300 million. The increase in second quarter earnings, compared to pre-tax income of \$298 million in the first quarter of 2018, was primarily due to higher realized prices and volumes across many core product lines and favorable plant margins, as ethylene costs were significantly lower than anticipated.

### **Midstream and Marketing**

Midstream pre-tax income for the second quarter of 2018 was \$250 million, compared to \$179 million for the prior quarter. Income for the first quarter of 2018 included a \$43 million pre-tax gain on the sale of interests in a gas plant. Excluding the first quarter gain, the increase in second quarter income reflected record earnings in the marketing business as it earned higher marketing margins from improved crude oil spreads, partially offset by the non-cash, mark-to-market impact on crude oil volumes.

Occidental has agreed to monetize certain non-core domestic midstream assets, which were classified as assets and liabilities held for sale on the balance sheet at June 30, 2018. These assets included the Centurion common carrier oil pipeline and storage system, the Southeast New Mexico oil gathering system and the Ingleside Crude Terminal. Following the transaction, Occidental will retain its long-term flow assurance, pipeline takeaway and export capacity through its retained marketing business.

### **About Occidental Petroleum**

Occidental Petroleum Corporation is an international oil and gas exploration and production company with operations in the United States, Middle East and Latin America. Headquartered in Houston, Occidental is one of the largest U.S. oil and gas companies, based on equity market capitalization. Occidental's midstream and marketing segment gathers, processes, transports, stores, purchases and markets hydrocarbons and other commodities. The company's wholly owned subsidiary OxyChem manufactures and markets basic chemicals and vinyls. Occidental posts or provides links to important information on its website at [www.oxy.com](http://www.oxy.com).

### **Forward-Looking Statements**

Portions of this press release contain forward-looking statements and involve risks and uncertainties that could materially affect expected results of operations, liquidity, cash flows and business prospects. Actual results may differ from anticipated results, sometimes materially, and reported results should not be considered an indication of future performance. Factors that could cause results to differ include, but are not limited to: global commodity pricing fluctuations; supply and demand considerations for Occidental's products; higher-than-expected costs; the regulatory approval environment; not successfully completing, or any material delay of, field developments, expansion projects, capital expenditures, efficiency projects, acquisitions or dispositions; uncertainties about the estimated quantities of oil and natural gas reserves; lower-than-expected production from development projects or acquisitions; exploration risks; general economic slowdowns domestically or internationally; political conditions and events; liability under environmental regulations including remedial actions; litigation; disruption or interruption of production or manufacturing or facility damage due to accidents, chemical releases, labor unrest, weather, natural disasters, cyber-attacks or insurgent activity; failure of risk management; changes in law or regulations; reorganization or restructuring of Occidental's operations; or changes in tax rates. Words such as "estimate," "project," "predict," "will," "would," "should," "could," "may," "might," "anticipate," "plan," "intend," "believe," "expect," "aim," "goal," "target," "objective," "likely" or similar expressions that convey the prospective nature of events or outcomes generally indicate forward-looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this release. Unless legally required, Occidental does not undertake any obligation to update any forward-looking statements, as a result of new information, future events or otherwise. Material risks that may affect Occidental's results of operations and financial position appear in Part I, Item 1A "Risk Factors" of Occidental's Annual Report on Form 10-K for the year ended December 31, 2017.

#### SIGNIFICANT TRANSACTIONS AND EVENTS AFFECTING EARNINGS

**SIGNIFICANT TRANSACTIONS AND EVENTS AFFECTING EARNINGS**

Occidental's results of operations often include the effects of significant transactions and events affecting earnings that vary widely and unpredictably in nature, timing and amount. These events may recur, even across successive reporting periods. Therefore, management uses a measure called "core results," which excludes those items. This non-GAAP measure is not meant to disassociate those items from management's performance, but rather is meant to provide useful information to investors interested in comparing Occidental's earnings performance between periods. Reported earnings are considered representative of management's performance over the long term. Core results are not considered to be an alternative to operating income reported in accordance with generally accepted accounting principles.
