Resource Extraction Payment Report

This Exhibit 99.1 to Form SD represents the specified payment disclosure required by the Resource Extraction Payment Rules under Section 13(q) of the Securities Exchange Act of 1934, as amended. This report is limited to payments required to be disclosed by the Resource Extraction Payment Rules, and amounts reported in this exhibit may be different from disclosures in Occidental's other publicly available financial reports, including those found within Occidental's periodic reports filed with the U.S. Securities and Exchange Commission.

Payments are reported on a cash basis in U.S. dollars. Foreign currency payments are converted using the exchange rate that existed at the time the payment was made. Payments are grouped into projects, which Occidental has defined as the combination of the major subnational political jurisdiction (designated by ISO 3166 country codes) and the body of water for offshore operations, the resource being extracted (oil and/or natural gas), and the extraction method (all of which are "well"). Obligations levied at the entity level rather than on a particular project are disclosed as entity level payments.
