**Prospectus Supplement
(To Prospectus dated July 31, 2019)**

3,000 Warrants

Warrants to Purchase Common Stock

On August 3, 2020, Occidental Petroleum Corporation (“Occidental”) issued 114,734,500 warrants (the “Warrants”) to purchase an equivalent number of shares of Occidental Common Stock, par value \$0.20 per share (the “Common Stock”), as a distribution (the “Distribution”) to holders of record of Occidental Common Stock as of July 6, 2020 (the “Record Date”). This prospectus supplement relates to the offer and sale of up to 3,000 Warrants that have been retained for sale by the Withholding Agent (as defined below), to fund U.S. federal withholding tax payments required in connection with the Distribution. Equiniti Trust Company, as withholding agent (the “Withholding Agent”), may sell the Warrants in one or more transactions at fixed prices, at market prices or varying prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. See “Plan of Distribution.”

We will not receive any proceeds from any sale of the Warrants by the Withholding Agent. The Withholding Agent will receive the proceeds from its sales of the Warrants, which proceeds will be applied by the Withholding Agent to satisfy U.S. federal income tax withholding obligations with respect to the Distribution, with any excess amounts being credited to the accounts of the applicable holders of the Warrants (the “Warrantholders”).

The Warrants may be exercised at any time in accordance with their terms until August 3, 2027, which is seven years after the date of the original issuance. Each Warrant entitles the holder to purchase from us one share of Common Stock at an initial exercise price of \$22.00 per share. The Warrants have been issued by Occidental pursuant to a warrant agreement, dated July 24, 2020, between Occidental and Equiniti Trust Company, as Warrant Agent (the “Warrant Agreement”).

Our Common Stock is listed on the New York Stock Exchange (“NYSE”) under the symbol “OXY.” On July 31, 2020, the last reported sale price of our Common Stock on the NYSE was \$15.74 per share. The Warrants are listed on the NYSE under the symbol “OXY WS.” A limited market, commonly known as a “when-issued” trading market, for the Warrants developed on July 30, 2020, and “regular-way” trading of the Warrants will begin on August 4, 2020. On July 31, 2020, the last reported sale price for the Warrants as reported on the NYSE under the when-issued trading market was \$5.60 per Warrant.

Investing in our Warrants and Common Stock involves risks. Please read “Risk Factors” in this prospectus supplement and in the accompanying prospectus and other information included or incorporated by reference into this prospectus supplement and the accompanying prospectus.

OCCIDENTAL PETROLEUM CORPORATION

Occidental is an international energy company with operations in the United States, Middle East, Africa and Latin America. We are the largest onshore oil producer in the U.S., including in the Permian Basin, and a leading offshore producer in the Gulf of Mexico. Our midstream and marketing segment provides flow assurance and maximizes the value of our oil and gas. Our chemical subsidiary OxyChem manufactures the building blocks for life-enhancing products.

Oil and Gas—This segment explores for, develops and produces oil and condensate, NGL and natural gas. Occidental’s oil and gas assets are located in some of the world’s highest-margin basins and are characterized by an advantaged mix of short- and long-cycle, high-return development opportunities. In the United States, Occidental holds a leading position in the Permian Basin, and is a leading offshore producer in the Gulf of Mexico. Other core operations are in the Middle East (Oman, United Arab Emirates and Qatar), Latin America (Colombia) and Africa (Algeria).

Chemical (OxyChem)—This segment primarily manufactures and markets basic chemicals and vinyls. OxyChem is a leading North American manufacturer of PVC resins, chlorine and caustic soda – key building blocks of products such as pharmaceuticals, water treatment chemicals and durable, long-life plastics. OxyChem has manufacturing facilities in the United States, Canada and Latin America.

Midstream and Marketing—This segment purchases, markets, gathers, processes, transports and stores oil, condensate, NGL, natural gas, carbon dioxide and power. It also trades around its assets, including transportation and storage capacity, and invests in entities that conduct similar activities. Also within the marketing and midstream segment is Oxy Low Carbon Ventures (“OLCV”). OLCV seeks to capitalize on Occidental’s enhanced oil recovery leadership by developing carbon capture, utilization and storage projects that source anthropogenic carbon dioxide and promote innovative technologies that drive cost efficiencies and economically grow Occidental’s business while reducing emissions.

Occidental is incorporated in Delaware. Its principal executive offices are located at 5 Greenway Plaza, Suite 110, Houston, Texas 77046 and its telephone number is (713) 215-7000. Occidental’s website address is www.oxy.com. Information contained on Occidental’s website does not constitute part of this prospectus supplement. Occidental’s Common Stock is publicly traded on the NYSE, under the ticker symbol “OXY.” Additional information about Occidental is included in documents incorporated by reference in this prospectus supplement. See “Where You Can Find More Information.”

RISK FACTORS

Investing in our Warrants and our Common Stock involves risks. Before you invest in our Warrants or our Common Stock, you should carefully consider the following risk factors, in addition to the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. Specifically, please see “Risk Factors” included in our Annual Report on Form 10-K for the year ended December 31, 2019, our Quarterly Report on Form 10-Q for the quarter ended March 31, 2020 and our Current Report on Form 8-K dated June 25, 2020 as such risks may be updated or supplemented in our subsequently filed Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q or Current Reports on Form 8-K, and the other information in that and the other reports that we file with the SEC that are incorporated by reference in this prospectus supplement or the accompanying prospectus for a discussion of risk factors that may affect the business.

Risks Related to the Warrants

There is no guarantee that the Warrants will be “in the money” prior to their expiration date and they may expire worthless.

On July 31, 2020, which is the last trading day prior to the date of this prospectus, the last reported sale price of our Common Stock on the NYSE was \$15.74 per share. This is less than the initial exercise price for the Warrants, which is \$22.00 per share (and which is subject to adjustment in accordance with the terms of the Warrant Agreement). There is no guarantee that the price of the Common Stock will exceed the exercise price of the Warrants (*i.e.*, that the Warrants will be “in the money”) prior to their expiration date, and as such, the Warrants may expire worthless. Any Warrant that you do not exercise prior to the expiration date will expire unexercised and you will not receive any shares of our Common Stock.

There is no existing market for the Warrants, and you cannot be certain that an active market will be established.

Prior to the distribution of the Warrants, there has been no existing trading market for the Warrants. Although on July 30, 2020, a limited “when-issued” trading market for the Warrants developed, “regular-way” trading of the Warrants will not commence until August 4, 2020. Accordingly, there can be no assurance that a trading market for the Warrants will develop. The liquidity of any market for the Warrants will depend on a number of factors, including but not limited to:

- the number of holders of the Warrants;
- our performance;
- the market for similar securities;
- the interest of securities dealers in making a market in the Warrants; and
- the market price of our Common Stock.

Prospective investors are cautioned that the market price of the Warrants may be volatile.

Holders may have to pay taxes if we adjust the exercise price with respect to the Warrants, even though holders would not receive any cash.

Warrant holders may, in certain circumstances, be deemed to have received constructive distributions where an adjustment is made to the exercise price with respect to the Warrants. Certain of these adjustments (including adjustments as a result of a taxable distribution to holders of any class of stock of the Company) could cause a holder to be deemed to receive a “constructive distribution” that is includible in income for U.S. federal income tax purposes. Non-U.S. Holders (as defined in “Material U.S. Federal Income Tax Considerations”) would generally be subject to U.S. federal withholding tax on such a constructive distribution, which may be withheld from any amounts owed to a holder, including from shares of our Common Stock to be delivered upon exercise of the Warrants. Please consult your tax advisor and read “Material U.S. Federal Income Tax Considerations” regarding the U.S. federal income tax consequences of such adjustments.

Holders of the Warrants will have no rights as common stockholders until they acquire our Common Stock.

Until you acquire shares of our Common Stock upon exercise of the Warrants, you will have no rights with respect to our Common Stock, including rights to receive dividends (if any), vote or respond to tender offers. Upon exercise of your Warrants, you will only be entitled to exercise the rights of a holder of Common Stock as to matters for which the record date occurs after the date you complete all the steps necessary to exercise such Warrants, including payment of the exercise price.

Risks Related to Our Common Stock

Our certificate of incorporation, stockholder rights agreement and applicable law could prevent a third party from acquiring us or limit the price that investors might be willing to pay for shares of our Common Stock.

Our certificate of incorporation authorizes our Board of Directors (the “Board”) to issue new series of preferred stock without stockholder approval. Depending on the rights and terms of any new series created, and the reaction of the market to the series, the rights of holders of our Common Stock or the value of our Common Stock could be negatively affected. For example, subject to applicable law, the Board could create a series of preferred stock with preferential rights to dividends or assets upon liquidation, or with superior voting rights to our existing Common Stock. The ability of the Board to issue these new series of preferred stock could also prevent or delay a third party from acquiring us, even if doing so would be beneficial to our noteholders and stockholders.

On March 12, 2020, the Board approved, and we entered into, a limited duration stockholder rights plan, which was approved by our stockholders at our 2020 annual meeting of stockholders. This stockholder rights plan provides us with a defensive mechanism that decreases the risk that a hostile acquirer will attempt to take control of us without negotiating directly with the Board. The stockholder rights agreement may discourage acquirers from attempting to purchase us, which may adversely affect the price of our Common Stock.

In addition, we are subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law (the “DGCL”), which prohibits Delaware corporations from engaging in certain business combinations with an interested stockholder (generally, a 15% or greater stockholder) for a period of three years after the date of the transaction in which the person first becomes an interested stockholder, unless:

- the business combination is approved in advance by a majority of the independent directors;
- upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of our voting stock; or
- the business combination is approved by the Board and by the holders of at least two-thirds of the outstanding shares of our Common Stock that is not owned by the interested stockholder.

The application of Section 203 of the DGCL could have the effect of delaying or preventing a change of control of us.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the Warrants. The proceeds from the sale of the Warrants by the Withholding Agent will be received by the Withholding Agent and applied to satisfy U.S. federal income tax withholding obligations with respect to the Distribution. Any excess amounts will be credited to the applicable Warrantholders.

DESCRIPTION OF THE WARRANTS

On August 3, 2020, Occidental made the Distribution to holders of record of Common Stock as of the record date, July 6, 2020 (the “Record Date”). The Warrants have been issued by Occidental pursuant to the Warrant Agreement. The following description of the Warrants and the Warrant Agreement is only a brief summary and is qualified in its entirety by reference to the complete description of the terms of the Warrants set forth in the Warrant Agreement (including the Form of Warrant attached thereto), which has been filed as an exhibit to our Current Report on Form 8-K, filed on July 27, 2020. The distribution of the Warrants has not been registered under the Securities Act because the issuance of a dividend in the form of a Warrant or as an adjustment to an outstanding equity-based incentive award for no consideration is not a sale or disposition of a security or interest in a security for value pursuant to Section 2(a)(3) of the Securities Act. Occidental has caused the Warrants to be listed on the NYSE for trading under the symbol “OXY WS.”

Each Warrant represents the right to purchase from Occidental one share of Common Stock for cash at an initial exercise price of \$22.00 per share, payable in U.S. dollars (subject to adjustment as described under “Anti-dilution Adjustments” below). The Warrants will expire on August 3, 2027 (or if that date is not a Business Day (as defined below), the next Business Day) (the “Expiration Date”). Occidental has issued the Warrants in uncertificated, direct registration form. The Warrant Agent will not be required to effect any registration of transfer or exchange that would result in the issuance of a Warrant Certificate or book-entry position for a fraction of a Warrant. Warrant holders will not be entitled to receive physical certificates. Registration of ownership will be maintained by the Warrant Agent. Occidental will at all times reserve for issuance the aggregate number of shares of Common Stock for which the Warrants may be exercised. The Warrants will not be redeemable by Occidental.

All or any part of the Warrants may be exercised prior to 5:00 p.m., New York City time, on any Business Day (each day that is not a Saturday, a Sunday or a day on which banking institutions are not required to be open in the State of New York) on or prior to the Expiration Date by delivering a completed form of election to purchase Common Stock and payment of the then-current exercise price in cash to the Warrant Agent. Any such delivery that occurs on a day that is not a Business Day or is received after 5:00 p.m., New York City time, on any given Business Day will be deemed received and exercised on the next succeeding Business Day. Upon such delivery, Occidental has issued such whole number of shares of Common Stock as the exercising Warrant holder is entitled to receive, and will pay or cause to be paid to such Warrant holder cash in lieu of fractional shares of Common Stock (without interest and computed to the nearest cent) otherwise issuable in connection with the exercise of the Warrant. The shares of Common Stock issuable upon exercise will be issued by Equiniti Trust Company, Occidental’s transfer agent, through Occidental’s direct registration system for the account of the exercising Warrant holder.

The Warrant Agreement may be amended without the consent of any Warrant holder for the purpose of curing any ambiguity or curing, correcting or supplementing any defective or inconsistent provision, or for the purpose of adding or changing any other provisions, including, but not limited to, additions or changes with respect to matters or questions arising under the Warrant Agreement. The consent of a majority in interest of the then-outstanding Warrants is required for any amendment that materially and adversely affects the interests of the holders of the then-outstanding Warrants.

A holder of unexercised Warrants, in his or her capacity as such, is not entitled to any rights of a holder of Common Stock, including, without limitation, the right to vote or to receive dividends or other distributions.

Occidental has agreed in the Warrant Agreement to use commercially reasonable efforts to cause a shelf registration statement (including, at Occidental’s election, an existing registration statement), filed pursuant to Rule 415 (or any successor provision) of the Securities Act, covering the issuance of Common Stock to the Warrant holders upon exercise of the Warrants to remain effective until the earlier of (i) such time as all Warrants have been exercised and (ii) the Expiration Date. Occidental may suspend the availability of the registration statement relating to the Warrants from time to time for a maximum of 45 days in a given 365-day period, if the Board determines that such a suspension would be necessary to comply with applicable laws and Occidental provides notice to the Warrant holders. If the registration is so suspended in the 45 days prior to the Expiration Date, the Expiration Date will be delayed for a number of days equal to the number of days during such 45-day period that the registration statement was suspended.

TABLE OF CONTENTS

The Warrants are exercisable only if there is an effective shelf registration statement, filed pursuant to Rule 415 (or any successor provision) under the Securities Act, registering the issuance of Common Stock upon exercise that is not subject to suspension pursuant to the Warrant Agreement, and only if the shares of Common Stock issuable upon exercise are qualified for sale or exempt from qualification under the applicable securities laws of any relevant states or other jurisdictions.

All expenses related to the registration and approval of the Common Stock issuable upon exercise of the Warrants will be borne by Occidental.

Anti-dilution Adjustments

The exercise price and number of shares of Common Stock issuable upon exercise of a Warrant will be subject to adjustment, without duplication, as follows, except that Occidental will not make any such adjustments if each Warrant holder participates, at the same time and upon the same terms as holders of the Common Stock and solely as a result of holding the Warrants, in any of the transactions described below, without having to exercise such Warrant holder's Warrants, as if such Warrant holder held a number of shares of Common Stock equal to the number of shares of Common Stock issuable upon exercise of such Warrant holder's Warrants:

- (a) If Occidental (i) declares and pays a dividend or makes a distribution on its Common Stock in shares of Common Stock, (ii) subdivides or reclassifies the outstanding shares of Common Stock into a greater number of shares or (iii) combines or reclassifies the outstanding shares of Common Stock into a smaller number of shares then, in such event:
 - (1) the number of shares of Common Stock issuable upon exercise of a Warrant on the record date for such dividend or distribution or the effective date of such subdivision, combination or reclassification will be proportionately adjusted so that the Warrant holder after such date will be entitled to purchase the number of shares of Common Stock that such Warrant holder would have owned or been entitled to receive in respect of the shares of Common Stock subject to such Warrant after such date had such Warrant been exercised immediately prior to such date; and
 - (2) the exercise price in effect on the record date for such dividend or distribution or the effective date of such subdivision, combination or reclassification will be adjusted to the number obtained by dividing (x) the product of (1) the number of shares of Common Stock issuable upon exercise of the Warrant before such adjustment and (2) the exercise price in effect immediately prior to the record or effective date, as the case may be, for the dividend, distribution, subdivision, combination or reclassification giving rise to the adjustment by (y) the new number of shares of Common Stock issuable upon exercise of the Warrant determined pursuant to clause (1) above.
- (b) If Occidental issues shares of Common Stock (or rights or warrants or other securities exercisable or convertible into or exchangeable (collectively, a "conversion") for shares of Common Stock (collectively, "convertible securities")) (other than in Permitted Transactions (as defined below) or a transaction to which clause (a) above or clauses (c) or (d) below apply) without consideration or at a consideration per share in the case of Common Stock (or, in the case of rights, warrants or other securities, having a conversion price per share) that is less than 95% of the Market Price (as defined in the Warrant Agreement) on the last Trading Day (as defined in the Warrant Agreement) preceding the date on which the relevant sales price, conversion price or exercise price is established then, in such event:
 - (1) the number of shares of Common Stock issuable upon exercise of a Warrant immediately prior to the date on which the sales price, conversion price or exercise price is established (the "Initial Number") will be increased to the number obtained by multiplying the Initial Number by a fraction (a) the numerator of which will be the sum of (x) the number of shares of Common Stock of Occidental outstanding on such date and (y) the number of additional shares of Common Stock issued (or into which convertible securities may be exercised or convert) and (b) the denominator of which will be the sum of (x) the number of shares of Common Stock outstanding on such date and (y) the number of shares of Common Stock that the aggregate consideration receivable by Occidental for the total number of shares of Common Stock so issued (or into which convertible securities may be exercised or convert) would purchase at the Market Price on the last Trading Day preceding the date on which the sales price, conversion price or exercise price is established; and

TABLE OF CONTENTS

- (2) the exercise price payable upon exercise of a Warrant will be adjusted by multiplying such exercise price in effect immediately prior to the date on which the sales price, conversion price or exercise price is established by a fraction, the numerator of which will be the number of shares of Common Stock issuable upon exercise of such Warrant prior to such date and the denominator of which will be the number of shares of Common Stock issuable upon exercise of such Warrant immediately after the adjustment described in paragraph (1) above.

For purposes of the foregoing, the aggregate consideration receivable by Occidental in connection with the issuance of such shares of Common Stock or convertible securities will be deemed to be equal to the sum of the net offering price (after deduction of any related expenses payable to third parties) of all such securities plus the minimum aggregate amount, if any, payable upon exercise or conversion of any such convertible securities into shares of Common Stock; and "Permitted Transactions" will include issuances (1) as consideration for or to fund the acquisition by Occidental of businesses and/or assets constituting a significant part of a business, (2) in connection with employee benefit plans and compensation related arrangements of Occidental approved by the Board, (3) in connection with a broadly marketed offering and sale of Common Stock or convertible securities for cash and (4) upon exercise of rights, warrants or other securities exercisable or convertible into or exchangeable for shares of Common Stock outstanding on the date of the Warrant Agreement or in accordance with the terms (whether mandatory or optional) of any security, instrument or agreement outstanding or in effect on the date of the Warrant Agreement. Any adjustment made pursuant to clause (b) above will become effective immediately upon the date of such issuance.

- (c) If Occidental fixes a record date for the making of a distribution to all holders of shares of its Common Stock of securities, evidences of indebtedness, assets, cash, rights or warrants (excluding (x) Ordinary Cash Dividends (as defined in the Warrant Agreement) and (y) dividends of its Common Stock and other dividends or distributions referred to in clause (i) above or clause (v) below), then, in each case:
 - (1) the exercise price in effect prior to such record date will be reduced immediately thereafter to the price determined by multiplying the exercise price in effect immediately prior to the reduction by the quotient of (x) the Market Price of the Common Stock on the last Trading Day preceding the first date on which the Common Stock trades regular way on the NYSE without the right to receive such distribution, minus the amount of cash or the Fair Market Value (as defined in the Warrant Agreement) of the securities, evidences of indebtedness, assets, rights or warrants to be so distributed in respect of one share of Common Stock (the "Per Share Fair Market Value") divided by (y) such Market Price on such date specified in clause (x); such adjustment will be made successively whenever such a record date is fixed; and
 - (2) the number of shares of Common Stock issuable upon exercise of each Warrant will be increased to the number obtained by dividing (x) the product of (1) the number of shares of Common Stock issuable upon exercise of each Warrant before such adjustment, and (2) the exercise price in effect immediately prior to the distribution giving rise to this adjustment by (y) the new exercise price determined in accordance with paragraph (1) above.

In the case of adjustment for a cash dividend that is, or is coincident with, a quarterly dividend, the Per Share Fair Market Value will be reduced by the per share amount of the portion of the cash dividend that would constitute an Ordinary Cash Dividend. In the event that such distribution is not so made, the exercise price and the number of shares of Common Stock issuable upon exercise of each Warrant then in effect will be readjusted, effective as of the date when the Board determines not to distribute such shares, evidences of indebtedness, assets, rights, cash or warrants, as the case may be, to the exercise price that would then be in effect and the number of shares of Common Stock issuable upon exercise of each Warrant that would then be issuable upon exercise of each Warrant if such record date had not been fixed.

- (d) If Occidental effects a Pro Rata Repurchase (as defined in the Warrant Agreement) of Common Stock, then:
 - (1) the exercise price will be adjusted to the price determined by multiplying the exercise price in effect immediately prior to the effective date of such Pro Rata Repurchase by a fraction of which the numerator will be (x) the product of (1) the number of shares of Common Stock outstanding immediately before such Pro Rata Repurchase and (2) the Market Price of a share of Common Stock on the Trading Day immediately preceding the first public announcement by Occidental or

- any of its affiliates of the intent to effect such Pro Rata Repurchase, minus (y) the aggregate purchase price of the Pro Rata Repurchase, and of which the denominator will be the product of (1) the number of shares of Common Stock outstanding immediately prior to such Pro Rata Repurchase minus the number of shares of Common Stock so repurchased and (2) the Market Price per share of Common Stock on the Trading Day immediately preceding the first public announcement by Occidental or any of its affiliates of the intent to effect such Pro Rata Repurchase; and
- (2) the number of shares of Common Stock issuable upon exercise of each Warrant will be adjusted to the number obtained by dividing (x) the product of (1) the number of shares of Common Stock issuable upon exercise of such Warrant before such adjustment, and (2) the exercise price in effect immediately prior to the Pro Rata Repurchase giving rise to this adjustment by (y) the new exercise price determined in accordance with paragraph (1) above.
- (e) (i) If Occidental distributes or is deemed to have distributed, or fixes a record date for the making of a distribution, to all holders of shares of its Common Stock of rights or warrants pursuant to a stockholder rights plan commonly known as a “poison pill” (a “Rights Plan”), which rights or warrants are not exercisable until the occurrence of a specified event or events (a “Trigger Event”), in each such case, upon the occurrence of the earliest such Trigger Event, the exercise price in effect prior to such Trigger Event will be reduced immediately after such Trigger Event to the price determined by multiplying the exercise price in effect immediately prior to the reduction by the quotient of (i) the Market Price of the Common Stock on the last Trading Day preceding the date of such Trigger Event (or, if the occurrence of such Trigger Event is not publicly disclosed as of the date of such Trigger Event, the last Trading Day preceding the first date on which the occurrence of such Trigger Event is publicly disclosed) (either such date, as applicable, the “Pre-Trigger Event Date”), minus the Fair Market Value of the rights or warrants distributed in respect of one share of Common Stock (determined as of the date of such Trigger Event or public disclosure of such Trigger Event, as applicable, after giving effect to the occurrence of such Trigger Event), divided by (ii) such Market Price on the Pre-Trigger Event Date; such adjustment will be made successively whenever any Trigger Event occurs under any Rights Plan and, with respect to any Rights Plan with respect to which an adjustment has been made, a corresponding adjustment will be made successively whenever any subsequent adjustment to the applicable rights or warrants is made pursuant to the terms of such Rights Plan to the extent such adjustment has not been made pursuant to the other terms of the Warrants. In such event, the number of shares of Common Stock issuable upon exercise of each Warrant will be increased to the number obtained by dividing (x) the product of (1) the number of shares of Common Stock issuable upon exercise of each Warrant before such adjustment, and (2) the exercise price in effect immediately prior to the applicable Trigger Event or subsequent adjustment by (y) the new exercise price determined in accordance with the immediately preceding sentence.
- (ii) In the event of any distribution (or deemed distribution) of rights or warrants, or any Trigger Event with respect thereto described in clause (e)(i) above:
- (1) upon the redemption or repurchase by Occidental of any such rights or warrants without exercise by the holders thereof, (x) in the event that a Trigger Event will have occurred and an adjustment to the Exercise Price and number of shares of Common Stock issuable upon exercise of each Warrant will have been made pursuant to clause (e)(i) above, the exercise price and number of shares of Common Stock issuable upon exercise of such Warrant will be readjusted as if such rights or warrants had not been distributed, and (y) whether or not a Trigger Event will have occurred, the exercise price and the number of shares of Common Stock issuable upon exercise of such Warrant will be adjusted or readjusted, as applicable, pursuant to the terms of clause (c) above upon such redemption or repurchase as though it were a cash distribution (but not an Ordinary Cash Dividend) equal to the per share redemption or repurchase consideration received by holders of shares of Common Stock with respect to such rights or warrants (assuming such holder had retained such rights or warrants) made to all holders of shares of Common Stock as of the date of such redemption or repurchase, it being understood that if a readjustment has occurred pursuant to clause (x) above, the readjustment described in this clause (y) will occur immediately following such readjustment made pursuant to clause (x); and

(2) in the event that a Trigger Event will have occurred and an adjustment to the exercise price and number of shares of Common Stock issuable upon exercise of each Warrant will have been made pursuant to clause (e)(i) above, in the case all such rights or warrants will have expired or been terminated without exercise by any holders thereof, the exercise price and the number of shares of Common Stock issuable upon exercise of each Warrant will be readjusted as if such rights and warrants had not been distributed.

(iii) If Occidental has a Rights Plan in effect with respect to its Common Stock, upon exercise of a Warrant, notwithstanding anything to the contrary in such Rights Plan, including any rights agreement or documents or instruments entered into as part of such Rights Plan, the Warrant holder will be entitled to receive, in addition to the shares of Common Stock issuable upon exercise of each Warrant, a corresponding number of rights under such Rights Plan, unless (A) a Trigger Event occurs prior to such exercise, in which case the adjustments (if any are required) to the exercise price and the number of shares of Common Stock issuable upon exercise of the Warrant with respect thereto will be made in accordance with clause (e)(i) above, or (B) the Warrant holder has provided written notice to Occidental that it has elected not to receive such rights.

(iv) Any adjustment to the exercise price and the number of shares of Common Stock issuable upon exercise of each Warrant will be made subject in all respects to the other anti-dilution adjustment provisions of the Warrant Agreement (but without duplication); *provided* that certain limitations, as described in the Warrant Agreement, apply.

In addition, Occidental may, but will not be required to, make such decreases in the exercise price, in addition to those required by the above provisions, as the Board considers to be advisable for any reason, including, without limitation, in order to avoid or diminish any income tax to any holders of shares of Common Stock or to any Warrant holders resulting from any dividend or distribution of stock or from any event treated as such for income tax purposes or for any other reason.

All calculations made pursuant to the adjustment provisions described above will be made to the nearest one-tenth (1/10th) of a cent or to the nearest one-hundredth (1/100th) of a share, as the case may be. No adjustment in the exercise price or the number of shares of Common Stock into which a Warrant is exercisable will be made if the amount of such adjustment would be less than \$0.01 or one-tenth (1/10th) of a share of Common Stock, but any such amount will be carried forward and an adjustment with respect thereto will be made at the time of and together with any subsequent adjustment that, together with such amount and any other amount or amounts so carried forward, will aggregate \$0.01 or 1/10th of a share of Common Stock, or more.

In any case in which the above provisions require that an adjustment become effective immediately after a record date for an event, Occidental may defer until the occurrence of such event (i) issuing to the holder of a Warrant exercised after such record date and before the occurrence of such event the additional shares of Common Stock issuable upon such exercise by reason of the adjustment required by such event over and above the shares of Common Stock issuable upon such exercise before giving effect to such adjustment and (ii) paying to such Warrant holder any amount of cash in lieu of a fractional share of Common Stock; *provided, however*, that Occidental upon request will deliver to such Warrant holder a due bill or other appropriate instrument evidencing such Warrant holder's right to receive such additional shares, and such cash, upon the occurrence of the event requiring such adjustment.

Any adjustments will be made successively whenever an event referred to above occurs. If an adjustment in exercise price made pursuant to the above provisions would reduce the exercise price to an amount below the par value of the Common Stock, then such adjustment will reduce the exercise price to the par value of the Common Stock.

Business Combinations and Reorganizations

In the event of a merger, consolidation, statutory share exchange or similar transaction that requires the approval of Occidental's stockholders (a "Business Combination") or reclassification of Common Stock, other than a reclassification of Common Stock referred to in "Anti-dilution Adjustments" above, the right of a Warrant holder to receive Common Stock upon exercise of a Warrant will be converted into the right to exercise a Warrant to acquire the number of shares of stock or other securities or property (including cash) that the Common Stock issuable (at the time of such Business Combination or reclassification) upon exercise of such

TABLE OF CONTENTS

Warrant immediately prior to such Business Combination or reclassification would have been entitled to receive upon consummation of such Business Combination or reclassification (the amount of such shares, other securities or property in respect of a share of Common Stock being herein referred to as a “Unit of Reference Property”). If the Business Combination causes the Common Stock to be converted into, or exchanged for, the right to receive more than a single type of consideration (determined based in part upon any form of stockholder election), then the composition of the Unit of Reference Property into which the Warrants will be exercisable will be deemed to be the weighted average of the types and amounts of consideration actually received by the holders of Common Stock per share of Common Stock.

Please refer to our Registration Statement on Form 8-A for a detailed description of our Warrants which may be obtained as described under “Where You Can Find More Information.”

DESCRIPTION OF COMMON STOCK

This section supplements, and should be read together with, the general description of our Common Stock included in the “Description of Common Stock” in the accompanying prospectus.

Stockholder Rights Plan

On March 12, 2020, the Board approved a limited duration stockholder rights plan (the “Rights Agreement”) and declared a dividend of one preferred share purchase right (a “Right”) for each outstanding share of Common Stock to purchase from Occidental one ten-thousandth of a share of Series B Junior Participating Preferred Stock, par value \$1.00 per share, of Occidental (the “Series B Preferred Stock”) at a price of \$55.00 per one ten-thousandth of a share of Series B Preferred Stock. The dividend was paid to holders of record of Occidental’s Common Stock at the close of business on March 23, 2020. The Rights will expire on March 11, 2021, unless the Rights are earlier redeemed or exchanged by us, or upon the occurrence of certain transactions.

Subject to certain exceptions specified in the Rights Agreement, the Rights will separate from the Common Stock and become exercisable following the earlier of:

- 10 business days from the public announcement that a person or group of affiliated or associated persons has become an Acquiring Person (as defined below) or such earlier date on which a majority of the Board becomes aware of the existence of an Acquiring Person; or
- such date (prior to such time as any person or group of affiliated persons becomes an Acquiring Person), if any, as may be determined by action of the Board following the commencement of, or public announcement of an intention to commence, a tender or exchange offer the consummation of which would result in any person or group of affiliated or associated persons becoming an Acquiring Person.

Except in certain situations, a person or group of affiliated or associated persons becomes an “Acquiring Person” upon acquiring beneficial ownership of 15% (20% in the case of a passive institutional investor) or more of the outstanding shares of Common Stock. Each Right will entitle its holder (other than the Acquiring Person) to receive upon exercise that number of shares of Common Stock having a market value of two times the exercise price of \$55.00 per Right.

A distribution of Rights will trigger an adjustment to the exercise price and number of shares issuable upon exercise of a Warrant pursuant to the Warrant Agreement. See “Description of the Warrants—Anti-dilution Adjustments.”

Dividend Policy

Subject to the dividend rights of the holders of any outstanding series of preferred stock, including the Cumulative Perpetual Preferred Stock, Series A, par value \$1.00 per share, of Occidental, the holders of shares of Common Stock will be entitled to receive dividends when, as and if declared by the Board. We will pay those dividends either in cash, shares of Common Stock, or otherwise, at the rate and on the date or dates as declared by the Board. Accruals of dividends on our Common Stock will not bear interest. As a Delaware corporation, we are subject to statutory limitations on the declaration and payment of dividends.

On July 15, 2020, Occidental paid a regular quarterly dividend of \$0.01 per share on our Common Stock to stockholders of record as of June 15, 2020. On August 3, 2020, Occidental made the Distribution as described herein. The declaration of future dividends will be a business decision made by the Board from time to time and will depend on our financial condition and other factors deemed relevant by the Board.

Please refer to our Registration Statement on Form 8-B for a detailed description of our Common Stock, which may be obtained as described under “Where You Can Find More Information.”

PLAN OF DISTRIBUTION

The Withholding Agent may offer to sell the Warrants at fixed prices, at market prices or varying prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices, and by any of the following methods:

- one or more transactions on the NYSE or otherwise;
- secondary sales pursuant to and in accordance with the rules of the NYSE;
- through one or more electronic trading platforms or services;
- over-the-counter market, in negotiated transactions;
- direct sales to one or more purchasers, including affiliates;
- a combination of such methods of sale; or
- any other method permitted by applicable law.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion summarizes the material U.S. federal income tax considerations that may be relevant to the ownership, exercise and disposition of the Warrants.

This discussion is limited to holders who hold the Warrants as capital assets (generally, property held for investment). This section addresses only U.S. federal income taxation and does not discuss all of the tax consequences that may be relevant to you in light of your individual circumstances, including foreign, state or local tax consequences, and tax consequences arising under the Medicare contribution tax on net investment income or the alternative minimum tax. This section does not apply to you if you are a member of a class of holders subject to special rules, such as:

- dealers in securities or currencies;
- traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;
- banks;
- life insurance companies;
- tax exempt organizations;
- persons that hold the Warrants as a position in a hedging transaction, “straddle,” “conversion transaction” or other risk reduction transaction;
- persons who are required to recognize income with respect to the Warrants no later than when such income is taken into account in an applicable financial statement;
- persons that actually or constructively own 5% or more of the total combined voting power of all our classes of stock that are entitled to vote;
- a controlled foreign corporation that is related to us through stock ownership;
- persons that purchase or sell the Warrants as part of a wash sale for tax purposes; and
- U.S. Holders (as defined below) whose functional currency for tax purposes is not the U.S. dollar.

If a partnership (including any entity taxed as a partnership for U.S. federal income tax purposes) holds the Warrants, the tax treatment of a partner in the partnership generally would depend upon the status of the partner and the activities of the partnership. If you are a partner in a partnership holding the Warrants, you should consult your own tax advisors regarding the U.S. federal income tax treatment of owning, exercising and disposing of the Warrants.

This summary is based on the Internal Revenue Code of 1986, as amended (the “Code”), its legislative history, existing and proposed regulations under the Code, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis. In addition, this summary does not address any tax consequences arising out of the laws of any state, local or foreign jurisdiction.

Please consult your own tax advisors concerning the consequences of the ownership, exercise and disposition of the Warrants, in your particular circumstances under the Code and the laws of any other taxing jurisdiction.

Tax Consequences to U.S. Holders

This subsection describes the tax consequences to a U.S. Holder. You are a “U.S. Holder” if you are a beneficial owner of a Warrant and you are:

- a citizen or resident of the United States;
- a domestic corporation;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust (a) if a U.S. court can exercise primary supervision over the trust’s administration and one or more U.S. persons are authorized to control all substantial decisions of the trust or (b) that has made a valid election under applicable U.S. Treasury regulations to be treated as a U.S. person.

If you are not a U.S. Holder, this subsection does not apply to you and you should refer to “Tax Consequences to Non-U.S. Holders” below.

Adjustments Under the Warrants

Pursuant to the terms of the Warrants, the number of shares of Common Stock that a holder is entitled to receive upon exercise of a Warrant and the exercise price of the Warrant are subject to certain anti-dilution and other adjustments as described under “Anti-dilution Adjustments,” above. Under Section 305 of the Code, certain of these adjustments (including adjustments as a result of a taxable distribution to holders of any stock of the Company) could cause a holder to be deemed to receive a “constructive distribution” that is includable in income for U.S. federal income tax purposes. In the event of such a taxable distribution, your basis in your Warrants will be increased by an amount equal to the taxable distribution.

The rules with respect to adjustments are complex. You should consult your own tax advisors in the event of an adjustment.

Sale or Other Disposition of the Warrants

Gain or loss realized by you on the sale or other taxable disposition of a Warrant prior to the expiration date will be subject to U.S. federal income tax as capital gain or loss in an amount equal to the difference between (a) your tax basis in the Warrants sold or otherwise disposed of and (b) the amount of cash and the fair market value of any property received by you in exchange for the Warrants. Your basis in the Warrant you receive will equal the amount you paid for the Warrants. Gain or loss will be long-term capital gain or loss if your holding period for the Warrants exceeds one year at the time of disposition. For this purpose, your holding period in the Warrant will begin on the day after the Warrant is acquired. If you are an individual, long-term capital gains may be eligible to be taxed at reduced rates. The deductibility of capital losses is subject to limitations.

Exercise of the Warrants

The exercise of the Warrant by or on behalf of you will not be a taxable transaction for U.S. federal income tax purposes. Your tax basis in the new shares of our Common Stock acquired upon exercise of the Warrant will equal the sum of the price paid for the new shares and your tax basis (as determined above) in the Warrant you exercised. The holding period of the new shares of our Common Stock will begin on the day the Warrants are exercised.

Expiration of the Warrants

In the event that you allow your Warrants to expire without exercising them, you will realize a loss equal to your tax basis in the Warrants (as determined in the same manner described above under “—Exercise of the Warrants”). Such loss will be long-term capital loss if your holding period for the Warrants exceeds one year at the time of disposition (as discussed above).

You should consult your own tax advisors regarding the ability to recognize a loss on the expiration of the Warrants, including the deductibility of such loss.

Information Reporting and Backup Withholding

Payments of dividends (including certain adjustments under the Warrants) and the proceeds from a sale or other disposition of the Warrants may be subject to information reporting and to backup withholding unless you are an exempt recipient or, in the case of backup withholding, you provide a correct taxpayer identification number and certify that no loss of exemption from backup withholding has occurred. The amount of any backup withholding will generally be allowed as a refund or credit against your U.S. federal income tax liability, provided that the required information is timely furnished to the Internal Revenue Service (the “IRS”).

Tax Consequences to Non-U.S. Holders

This subsection describes the tax consequences to a Non-U.S. Holder. You are a Non-U.S. Holder if you are a beneficial owner of a Warrant that is not a U.S. Holder.

Adjustments Under the Warrants

Any “constructive distribution” resulting from certain anti-dilution and other adjustments (as described above under “—Tax Consequences for U.S. Holders—Adjustments Under the Warrants”) will be subject to withholding tax at a 30% rate (or lower applicable treaty rate). In the event of such a taxable distribution, it is possible that this tax would be withheld from any amount owed to you, including shares of our Common Stock delivered upon exercise of the Warrants. In order to obtain a reduced rate of withholding, you will be required to provide documentation (generally IRS Form W-8BEN or W-8BEN-E) certifying that you are entitled to benefits under a treaty. The withholding tax on the deemed dividend does not apply to you if you provide a Form W-8ECI, certifying that the deemed dividends are effectively connected with the conduct of your trade or business within the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment maintained by you in the United States). Instead, the effectively connected deemed dividends will be subject to regular U.S. income tax as if you were a United States person (as defined in the Code). If you are treated as a corporation for U.S. income tax purposes and receive effectively connected deemed dividends you may also be subject to an additional “branch profits tax” imposed at a rate of 30% (or lower applicable treaty rate). You may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for a refund with the IRS. You should consult your tax advisors regarding your entitlement to benefits under an appropriate income tax treaty and the specific manner of claiming the benefits of the treaty.

The rules with respect to adjustments are complex. You should consult your own tax advisors in the event of an adjustment.

Exercise or Expiration of the Warrants

You will generally not be subject to U.S. federal income tax (or any withholding thereof) on the exercise of the Warrants. Your tax basis and holding period in the new shares of our Common Stock acquired upon exercise of the Warrant will be determined in the same manner described above under “—Tax Consequences for U.S. Holders—Exercise of the Warrants.”

In the event that you allow your Warrants to expire without exercising them, you will realize a loss equal to your tax basis in the Warrants (as determined in the same manner described above under “—Tax Consequences for U.S. Holders—Exercise of the Warrants”). Such loss will be long term capital loss if your holding period for the Warrants exceeds one year at the time of disposition (as discussed above). However, this loss will only be available to offset other U.S. federal income tax liability and may be subject to additional limitations. You should consult your own tax advisors regarding the ability to recognize a loss on the expiration of the Warrants, including the deductibility of such loss.

Sale or Other Disposition of the Warrants

In general, you will not be subject to U.S. federal income tax (or any withholding thereof) on any gain (or loss) realized by you on the sale or other taxable disposition of a Warrant prior to the expiration date unless:

- the gain is effectively connected with your conduct of a trade or business within the United States (and, if an income tax treaty applies, is attributable to a United States permanent establishment); or
- you are an individual who is present in the United States for 183 days or more in the taxable year of disposition and you meet other conditions.

Gain that is effectively connected with your conduct of a trade or business within the United States (and, if an income tax treaty applies, is attributable to a United States permanent establishment) generally will be subject to U.S. federal income tax, net of certain deductions, at the same rates applicable to U.S. persons. If you are a corporation, a “branch profits tax” of 30% (or a lower rate prescribed in an applicable income tax treaty) also may apply to such effectively connected gain.

If you are an individual who is present in the U.S. for 183 days or more in the taxable year of such sale or disposition and certain other conditions are met, you will be subject to tax at a gross rate of 30% on the amount by which your taxable capital gains allocable to U.S. sources, including gain from the sale or other disposition of the Warrants, exceed capital losses allocable to U.S. sources, except as otherwise provided in an applicable income tax treaty.

In addition, you may be subject to U.S. federal income tax on the sale or other taxable disposition of a Warrant if we were a “United States real property holding corporation”—generally a corporation for which the

TABLE OF CONTENTS

fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of all of its assets (“USRPHC”)—at any time within the shorter of the five-year period preceding a such disposition or your holding period for the Warrants (the “testing period”). There can be no assurances that we are not or will not become a USRPHC. Even if, however, we were a USRPHC during the testing period, you will generally not be subject to U.S. federal income tax on the sale or other taxable disposition under these rules as long as: (i) you do not actually or constructively hold at any time during the testing period more than 5% of the outstanding Warrants; and (ii) the Warrants or our common stock are regularly traded on an established securities market (such as the NYSE). You should consult your own tax advisors regarding the application of these rules.

Information Reporting and Backup Withholding

Payments of dividends (which include the distribution of the Warrants and certain adjustments under the Warrants) on our Common Stock will generally be subject to information reporting. Unless you comply with certification procedures to establish that you are not a U.S. person, information reporting may apply to the proceeds from a sale or other disposition of the Warrants and you may be subject to U.S. backup withholding tax on payments of dividends (including certain adjustments under the Warrants) or the proceeds from a sale or other disposition of the Warrants. The amount of any backup withholding will generally be allowed as a refund or credit against your U.S. federal income tax liability, provided that the required information is timely furnished to the IRS.

FATCA Withholding

Sections 1471 through 1474 of the Code, the FATCA provisions, impose U.S. withholding taxes on certain types of payments made to foreign entities. Failure to comply with the additional certification, information reporting and other specified requirements imposed under FATCA could result in U.S. withholding tax being imposed on payments of dividend distributions (including certain adjustments under the Warrants) paid to a foreign entity. You should consult your own tax advisors regarding FATCA and its effects.

FORWARD-LOOKING STATEMENTS

This prospectus, any accompanying prospectus supplement and the documents incorporated by reference herein and therein contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and include this statement for purposes of complying with these safe harbor provisions.

This document contains certain forward-looking statements with respect to the financial condition, results of operations and business, plans, objectives and strategies of Occidental. These statements may be made directly in this prospectus or may be incorporated by reference to other documents or in any accompanying prospectus supplement. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements often use words such as “anticipate”, “target”, “expect”, “estimate”, “intend”, “plan”, “goal”, “believe”, “hope”, “aim”, “continue”, “will”, “may”, “would”, “could” or “should” or other words of similar meaning. There are several factors which could cause actual plans and results to differ materially from those expressed or implied in forward-looking statements. Such factors include, but are not limited to:

- changing crude oil, natural gas and natural gas liquids (“NGLs”) prices;
- changing marketing and chemicals margins;
- actions of competitors or regulators;
- advances in the competitiveness of alternate-energy sources or product substitutes;
- the timing of exploration expenses and crude oil liftings;
- our ability to successfully complete, or any material delay of, field developments, expansion projects, capital expenditures, efficiency projects, acquisitions or dispositions;
- risks associated with acquisitions, mergers and joint ventures, such as difficulties integrating businesses, uncertainty associated with financial projections, projected synergies, restructuring, increased costs, and adverse tax consequences;
- uncertainties and liabilities associated with acquired and divested properties and businesses;
- technological developments;
- the results of operations and financial condition of our suppliers, vendors, partners and equity affiliates, particularly during extended periods of low prices for crude oil and natural gas;
- the inability or failure of our joint-venture partners to fund their share of operations and development activities;

- potential delays in the development, construction or start-up of planned projects;
- the potential disruption or interruption of our operations due to natural or human causes beyond such company’s control, including crude oil production quotas or other actions that might be imposed by the Organization of Petroleum Exporting Countries;
- changing economic, regulatory and political environments in the various countries in which we operate;
- the potential liability for remedial actions or assessments under existing or future environmental regulations and litigation;
- significant operational, investment or product changes required by existing or future environmental statutes and regulations;

TABLE OF CONTENTS

- government-mandated sales, divestitures, recapitalizations, industry-specific taxes, tariffs, sanctions, changes in fiscal terms or restrictions on the scope of company operations;
- foreign currency movements compared with the U.S. dollar; and
- other risk factors as detailed from time to time in our and Anadarko's reports filed with the SEC, including Occidental's and Anadarko's respective Annual Reports on Form 10-K for the year ended December 31, 2018, which are incorporated herein by reference, as well as any subsequent periodic or current reports filed with the SEC, including the risks and uncertainties set forth in, or incorporated by reference into, this prospectus in the section entitled "Risk Factors" beginning on page 0. See "Where You Can Find More Information" beginning on page 0.

These forward-looking statements reflect our current views with respect to future events and are based on numerous assumptions and assessments made by us in light of our experience and perception of historical trends, current conditions, business strategies, operating environments, future developments and other factors we believe appropriate. By their nature, forward-looking statements involve known and unknown risks and uncertainties because they relate to events and depend on circumstances that will occur in the future. The factors described in the context of such forward-looking statements in this document could cause our plans, actual results, performance or achievements, industry results and developments to differ materially from those expressed in or implied by such forward-looking statements. Although it is believed that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct and persons reading this document are therefore cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this prospectus or, in the case of a document incorporated by reference, as of the date of that document. We do not assume any obligation to update the information contained in this document (whether as a result of new information, future events or otherwise), except as required by applicable law.

ABOUT OCCIDENTAL

Our principal businesses consist of three segments. The oil and gas segment explores for, develops and produces oil and condensate, NGLs and natural gas. The chemical segment mainly manufactures and markets basic chemicals and vinyls. The midstream and marketing segment purchases, markets, gathers, processes, transports and stores oil, condensate, NGLs, natural gas, carbon dioxide and power. It also trades around its assets, including transportation and storage capacity. Additionally, the midstream and marketing segment invests in entities that conduct similar activities.

On May 9, 2019, we entered into an Agreement and Plan of Merger (the “Merger Agreement”), among us, Anadarko and a wholly owned subsidiary of Occidental, pursuant to which, among other things and subject to the satisfaction or waiver of certain conditions, Anadarko will merge with and into our wholly owned subsidiary and survive the merger as a wholly owned subsidiary of Occidental. The transaction is expected to close shortly after Anadarko's special meeting of its stockholders on August 8, 2019 and is subject to the customary closing conditions, including approval from Anadarko's shareholders.

Our principal executive offices are located at 5 Greenway Plaza, Suite 110, Houston, Texas 77046; our telephone number is (713) 215-7000.

RISK FACTORS

Investing in our securities involves risks. Before you invest in our securities you should carefully consider the risk factors relating to an investment in our securities described in this prospectus, any applicable prospectus supplement and the Annual Reports of Occidental and Anadarko on Form 10-K for the year ended December 31, 2018 and in any subsequent periodic or current reports filed with the SEC under the Exchange Act that include “Risk Factors” or that discuss risks to Occidental or Anadarko and that are incorporated herein by reference.

USE OF PROCEEDS

Unless otherwise specified in an applicable prospectus supplement, we intend to use the net proceeds we receive from the sale of any securities offered under this prospectus for general corporate purposes, including, among other possible uses, repayment or refinancing of debt, acquisitions, working capital, capital expenditures and repurchases and redemptions of securities.

DESCRIPTION OF SENIOR DEBT SECURITIES

General

We may issue one or more series of senior debt securities pursuant to this prospectus. We will issue the senior debt securities under an indenture (the “Senior Indenture”) to be entered into in the future between us and The Bank of New York Mellon Trust Company, N.A., as trustee (“Senior Indenture Trustee”). A copy of the form of Senior Indenture is included as an exhibit to the registration statement of which this prospectus is a part.

Below is a description of certain general terms of the senior debt securities. The description is not complete and is subject to and qualified in its entirety by reference to the Senior Indenture. The particular terms of a series of senior debt securities will be described in a prospectus supplement and, if applicable, a pricing supplement. Capitalized terms used but not defined in this summary have the meanings specified in the Senior Indenture.

The senior debt securities will rank equally with all of our unsecured and unsubordinated debt. The Senior Indenture is subject to the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”). The Senior Indenture does not limit the amount of senior debt securities which we may issue, nor does it limit us or our subsidiaries from issuing any other unsecured debt. Such other unsecured debt may have different terms than the senior debt securities. Our previously issued and outstanding senior debt does have different terms than the senior debt securities (including different restrictive covenants and event of default provisions). The terms of the senior debt securities issued under this prospectus will only be as described in the Senior Indenture, this prospectus and any prospectus supplement.

Each prospectus supplement, together with a pricing supplement, if applicable, will describe the terms relating to a series of senior debt securities, which may include:

- the title;
- any limit on the amount that may be issued (unless expressly provided in the applicable prospectus supplement or pricing supplement, a series of our senior debt securities may be re-opened from time to time for the issuance of additional senior debt securities of that series subject to any terms and conditions set forth in or established pursuant to the Senior Indenture);
- the price at which that series of senior debt securities will be issued, which may be at a discount;
- whether or not that series of senior debt securities will be issued in global form and, if applicable, who the depositary will be;
- the maturity date(s) or the method of determining the maturity date(s);
- the person to whom any interest will be payable on any senior debt security, if other than the person in whose name that security is registered at the close of business on the regular record date;
- the interest rate(s), if any (which may be fixed or variable), or the method for determining the rate(s) and the date(s) interest will begin to accrue, the date(s) interest will be payable and the regular record date(s) for interest payment date(s);
- the place(s) where payments shall be payable, senior debt securities may be surrendered for registration of transfer, securities may be surrendered for exchange, and notices and demands to or upon us may be served;
- the period(s) within which, and the price(s) at which, that series of senior debt securities may, pursuant to any optional or mandatory redemption provisions, be redeemed, in whole or in part, and other related terms and conditions;
- any mandatory or optional sinking fund provisions or any provisions for remarketing that series of senior debt securities and other related terms and provisions;
- the denominations in which that series of senior debt securities will be issued, if other than denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof;
- the currency or currencies, including composite currencies or currency units, in which that series of senior debt securities may be denominated or in which payment of the principal of and interest, if any,

TABLE OF CONTENTS

on that series of senior debt securities shall be payable, if other than the currency of the United States of America, and, if so, whether that series of senior debt securities may be satisfied and discharged other than as provided in Article Four of the Senior Indenture;

- if the amounts of payments of principal of and interest on, if any, that series of senior debt securities are to be determined by reference to an index, formula or other method, or based on a coin or currency other than that in which that series of senior debt securities are stated to be payable, the manner in which such amounts shall be determined and the calculation agent, if any, with respect thereto;
- if other than the principal amount thereof, the portion of the principal amount of that series of senior debt securities that will be payable upon declaration of acceleration of the maturity thereof pursuant to an event of default;
- whether we will pay additional amounts on any of the senior debt securities and coupons, if any, of the series to any non-United States holder in respect of any tax, assessment or governmental charge withheld or deducted, and under what circumstances and with what procedures we will pay such additional amounts;
- if other than as defined in the Senior Indenture, the meaning of “Business Day” when used with respect to that series of senior debt securities;
- if that series of senior debt securities may be issued or delivered (whether upon original issuance or upon exchange of a temporary security of such series or otherwise), or any installment of principal or interest is payable, only upon receipt of certain certificates or other documents or satisfaction of other conditions in addition to those specified in the Senior Indenture, the forms and terms of those certificates, documents or conditions;
- any addition to, or modification or deletion of, any event of default, covenant or other term or provision specified in the Senior Indenture with respect to that series of senior debt securities; and
- any other terms, which other terms may (subject, in the case of an existing outstanding series of senior debt securities, to the provisions of the Senior Indenture described below under “—Modification of Senior Indenture; Waiver”) amend, supplement or replace any of the terms of the Senior Indenture insofar as it concerns the senior debt securities of that series.

Each prospectus supplement or pricing supplement, as applicable, may describe certain United States federal income tax considerations applicable to the purchase, holding and disposition of the senior debt securities that the prospectus supplement or pricing supplement covers, as applicable.

Limitation on Liens

The Senior Indenture will provide that we will not, nor will we permit any Consolidated Subsidiary (as defined below) to, incur, create, assume, guarantee or otherwise become liable with respect to any Secured Debt (as defined below), unless the senior debt securities are secured equally and ratably with (or prior to) such Secured Debt. This covenant will not apply to:

- (1) Liens (as defined below) existing on the date of the Senior Indenture;
- (2) Liens existing on property of, or on any shares of Capital Stock or Indebtedness (each as defined below) of, any Business Entity (as defined below) at the time such Business Entity becomes a Consolidated Subsidiary or at the time such Business Entity is merged into or consolidated with us or any Consolidated Subsidiary or at the time of sale, lease or other disposition of the properties of such Business Entity (or a division of such Business Entity) to us or a Consolidated Subsidiary as an entirety or substantially as an entirety;
- (3) Liens in favor of us or a Consolidated Subsidiary;
- (4) Liens in favor of governmental bodies to secure progress, advance or other payments pursuant to any contract or provision of any statute;
- (5) Liens existing on property, shares of Capital Stock or Indebtedness at the time of acquisition thereof (including acquisition through merger or consolidation) or Liens to (i) secure the payment of all or any part of the purchase price of such property, shares or Indebtedness or the cost of construction, installation, expansion, renovation, improvement or development on or of such property or (ii) secure any Indebtedness

TABLE OF CONTENTS

incurred prior to, at the time of, or within two years after the latest of the acquisition, the completion of such construction, installation, expansion, renovation, improvement or development or the commencement of full operation of such property or within two years after the acquisition of such shares or Indebtedness for the purpose of financing all or any part of the purchase price or cost thereof;

- (6) Liens on any specific oil or gas property to secure Indebtedness incurred by us or any Consolidated Subsidiary to provide funds for all or any portion of the cost of exploration, production, gathering, processing, marketing, drilling or development of such property;
- (7) Liens on any Principal Domestic Property (as defined below) securing Indebtedness incurred under industrial development, pollution control or other revenue bonds issued or guaranteed by the United States of America or any State thereof or any department, agency, instrumentality or political subdivision thereof;
- (8) Liens on any Principal Domestic Property securing Indebtedness arising in connection with the sale of accounts receivable resulting from the sale of oil or gas at the wellhead;
- (9) extensions, renewals or refundings of any Liens referred to in the foregoing clauses (1) through (8), subject to certain limitations; and
- (10) Liens on property or shares of Capital Stock of any WES Entity (as defined below).

Notwithstanding the foregoing, we and one or more Consolidated Subsidiaries may incur, create, assume, guarantee or otherwise become liable with respect to any Secured Debt that would otherwise be subject to the foregoing restrictions if, after giving effect thereto, the aggregate amount of all Secured Debt would not exceed 15% of Consolidated Net Tangible Assets (as defined below).

Consolidation, Merger or Sale

The Senior Indenture will not permit us to consolidate with, merge into or convey, transfer or lease our properties and assets substantially as an entirety to any Business Entity unless the following conditions are met:

- the Business Entity formed by such consolidation or into which we are merged or the Business Entity that acquires by conveyance or transfer, or which leases, our properties and assets substantially as an entirety shall be a Business Entity organized and existing under the laws of the United States of America, any state thereof or the District of Columbia and shall expressly assume, by a supplemental indenture, all of our obligations under the Senior Indenture and the senior debt securities; and
- immediately after giving effect to such transaction, no event of default, or event that, after notice or lapse of time or both, would become an event of default, shall have occurred and be continuing.

If the conditions described above are satisfied with respect to the senior debt securities, we will not need to obtain the approval of the holders in order to engage in such a consolidation, merger, conveyance, transfer or lease. Also, these conditions will apply only if we wish to consolidate with or merge into, or convey, transfer or lease our properties and assets substantially as an entirety to, another entity. We will not need to satisfy these conditions if we enter into other types of transactions, including any transaction in which we acquire the stock or assets of another entity, any transaction that involves a change of control of Occidental but in which we do not consolidate with or merge into another entity and any transaction in which we convey, transfer or lease less than substantially all our assets.

Reports

The Senior Indenture will provide that we will file with the Senior Indenture Trustee, within 15 days after we have filed the same with the United States Securities and Exchange Commission (the "Commission"), copies of the annual reports and of the information, documents and other reports (or copies of such portions of any of the foregoing as the Commission may from time to time by rules and regulations prescribe) which we may be required to file with the Commission pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934; *provided* that we will be deemed to have filed copies of any such annual reports, documents or other reports with the Senior Indenture Trustee to the extent that such annual reports, documents or other reports are filed with the Commission via EDGAR (or any successor electronic delivery procedure).

Events of Default and Remedies Under the Senior Indenture

The following will be events of default under the Senior Indenture with respect to each series of senior debt securities:

- failure to pay any installment of interest upon any senior debt securities of such series when it becomes due and payable, and continuance of such failure to pay for a period of 30 days;
- failure to pay the principal of any senior debt securities of such series when due;
- failure to perform or breach of any other covenant or warranty contained in the senior debt securities or the Senior Indenture (other than a covenant or warranty specifically benefiting only another series of senior debt securities), and the continuance of such failure or breach for a period of 90 days after we receive notice of such failure or breach from the Senior Indenture Trustee or holders of at least 25% in principal amount of the outstanding senior debt securities of that series;
- certain events of bankruptcy, insolvency or reorganization relating to us; and
- any other event of default specified in the prospectus supplement or pricing supplement, if any, relating to that series of senior debt securities.

If an event of default with respect to senior debt securities of any series occurs and is continuing, the Senior Indenture Trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series, by notice in writing to us (and to the Senior Indenture Trustee if notice is given by such holders), may declare the principal of (or if such senior debt securities are Original Issue Discount Securities, the portion of the principal amount specified in the applicable prospectus supplement or pricing supplement, if any), and accrued interest, if any, on the senior debt securities of such series to be due and payable immediately. At any time after such a declaration of acceleration has been made and before a judgment or decree for payment of the money due has been obtained, holders of a majority in principal amount of the outstanding senior debt securities of that series, by written notice to us and the Senior Indenture Trustee, may rescind and annul such declaration and its consequences if:

- we have paid or deposited with the Senior Indenture Trustee a sum sufficient to pay all overdue installments of interest on the senior debt securities of that series, the principal of any senior debt securities of that series which has become due otherwise than by such declaration of acceleration and interest thereon, to the extent payment of such interest is lawful, interest on overdue installments of interest, all sums paid or advanced by the Senior Indenture Trustee, the reasonable compensation, expenses, disbursements and advances of the Senior Indenture Trustee, its agents and counsel and any other amount due to the Senior Indenture Trustee under the Senior Indenture, and
- all events of default with respect to outstanding senior debt securities of that series, other than the non-payment of the principal of and interest on such senior debt securities which became due solely by such declaration of acceleration, have been cured or waived in accordance with the terms of the Senior Indenture.

The holders of a majority in principal amount of the outstanding senior debt securities of any series may waive any past default with respect to that series and its consequences, except defaults regarding:

- payment of principal or interest; or
- covenants that cannot be modified or amended without the consent of each holder of an outstanding senior debt security affected thereby (as described under “—Modification of Senior Indenture; Waiver” below).

Any waiver shall cure such default and the corresponding event of default.

Subject to the terms of the Senior Indenture, the Senior Indenture Trustee will be under no obligation to exercise any of its rights or powers under the Senior Indenture at the request or direction of any of the holders of the applicable series of senior debt securities, unless the holders have offered the Senior Indenture Trustee reasonable security or indemnity against costs, expenses and liabilities to be incurred in compliance with such request. The holders of a majority in principal amount of the outstanding senior debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Senior Indenture Trustee, or exercising any trust or power conferred on the Senior Indenture Trustee, with respect to the senior debt securities of that series; provided that:

- the direction given to the Senior Indenture Trustee is not in conflict with any law or the Senior Indenture;

TABLE OF CONTENTS

- the Senior Indenture Trustee may take any other action deemed proper by it which is not inconsistent with that direction; and
- the Senior Indenture Trustee has not determined that the action would be unjustly prejudicial to the holders not involved in the proceeding.

A holder of the senior debt securities of any series will have the right to institute a proceeding under the Senior Indenture or to appoint a receiver or trustee, or to seek other remedies only if:

- the holder has given written notice to the Senior Indenture Trustee of a continuing event of default with respect to that series;
- the holders of at least 25% in principal amount of the outstanding senior debt securities of that series have made written request, and have offered reasonable indemnity, to the Senior Indenture Trustee to institute the proceedings as trustee; and
- the Senior Indenture Trustee does not institute the proceeding, and does not receive from the holders of a majority in principal amount of the outstanding senior debt securities of that series other conflicting directions, within 60 days after the notice, request and offer of indemnity.

The Senior Indenture provides that no holder or group of holders of senior debt securities will have any right to affect, disturb or prejudice the rights of other holders, obtain or seek priority or preference over another holder or enforce its rights under the Senior Indenture except as provided in the Senior Indenture for the equal and ratable benefit of all holders.

These limitations on instituting proceedings do not apply to a suit instituted by a holder of senior debt securities to enforce the payment of the principal of or interest on the senior debt securities.

We will periodically deliver statements to the Senior Indenture Trustee regarding the existence or absence of defaults under the Senior Indenture.

Modification of Senior Indenture; Waiver

We and the Senior Indenture Trustee may amend or supplement the Senior Indenture without the consent of any holders to, among other things:

- evidence the succession of another Business Entity to us and the assumption by such successor of our covenants, agreements and obligations in the Senior Indenture and the senior debt securities;
- add to our covenants, agreements and obligations for the benefit of the holders of all senior debt securities or any series thereof, or to surrender any right or power the Senior Indenture confers upon us;
- establish the form and terms of the senior debt securities of any series and (unless prohibited by the terms of the senior debt securities of any series pursuant to the Senior Indenture) to provide for the re-opening of a series of senior debt securities and for the issuance of additional senior debt securities of such series;
- evidence and provide for the acceptance of appointment under the Senior Indenture of a successor Senior Indenture Trustee with respect to the senior debt securities of one or more series;
- cure any ambiguity or correct or supplement any provision in the Senior Indenture that may be inconsistent with any other provision in the Senior Indenture or make other provisions with respect to matters or questions arising under the Senior Indenture;
- add, change or eliminate any provisions of the Senior Indenture (which addition, change or elimination may apply to one or more series of senior debt securities), *provided*, that the addition, change or elimination neither (a) applies to any senior debt securities of any series created prior to the execution of the supplemental indenture that is entitled to the benefit of the provision nor (b) modifies the rights of holders of those senior debt securities with respect to those modified provisions;
- add to or change or eliminate any provision of the Senior Indenture as shall be necessary to comply with any amendments to the Trust Indenture Act or to otherwise maintain qualification of the Senior Indenture under the Trust Indenture Act or to comply with the rules of any applicable depositary;

TABLE OF CONTENTS

- to conform the text of the Senior Indenture or the senior debt securities to any provision of the section “Description of Notes” (or equivalent title) in the offering memorandum or prospectus relating to the initial offering of such senior debt securities;
- secure the senior debt securities; or
- change anything else that does not adversely affect the interests of any holder of senior debt securities in any material respect.

In addition, under the Senior Indenture, the rights of holders of any series of senior debt securities may be changed by us and the Senior Indenture Trustee with the written consent of (i) the holders of not less than a majority in principal amount of all outstanding debt securities issued under the Senior Indenture voting as a single class or (ii) if fewer than all of the series of outstanding debt securities issued under the Senior Indenture are affected by such addition, change, elimination or modification, the holders of not less than a majority in principal amount of the outstanding securities of all series so affected by such supplemental indenture voting as a single class (including, for the avoidance of doubt, consents obtained in connection with a purchase of, or tender offer or exchange for, such debt securities), to execute a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of, the Senior Indenture with respect to such applicable series of debt securities or modify in any manner the rights of the holders of such applicable series of debt securities under the Senior Indenture.

However, no change may be made without the consent of each holder of an outstanding senior debt security affected thereby if such change would, among other things:

- change the stated maturity of principal of, or any installment of principal or interest on, any such senior debt security;
- reduce the principal amount of, or the rate of interest on, or any premium payable on, any such senior debt security;
- change the place where, or currency in which, any principal of or interest on any such senior debt security is payable;
- impair the right of the holders to institute suit for the enforcement of any payment of any such senior debt security on or after the stated maturity thereof (or, in the case of redemption, on or after the Redemption Date or, in the case of any senior debt security that is subject to repurchase or redemption by us at the option of the holders, on or after the date fixed for such repurchase or redemption);
- reduce the percentage in principal amount of outstanding senior debt securities of any series the holders of which are required to consent to any such change, or the consent of whose holders is required for any waiver of compliance with certain provisions of the Senior Indenture or certain defaults thereunder and their consequences with respect to the senior debt securities of such series provided for in the Senior Indenture; and
- modify any of the foregoing requirements or the provisions regarding waivers of any covenant or past default other than to increase the percentage of holders required for consent or waiver or add consent requirements for modification or waiver of other provisions.

Form, Exchange and Transfer

The senior debt securities of each series will be issued as registered securities. Unless otherwise specified in the applicable prospectus supplement or the pricing supplement, if any, senior debt securities will be issued in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof. Subject to the terms of the Senior Indenture and the limitations applicable to global securities described in the applicable prospectus supplement or the pricing supplement, if any, senior debt securities will be exchangeable for other senior debt securities of the same series, in any authorized denomination and of like tenor and aggregate principal amount.

Subject to the terms of the Senior Indenture and the limitations applicable to global senior debt securities set forth in the applicable prospectus supplement or pricing supplement, if any, senior debt securities issued may be presented for exchange or for registration of transfer (duly endorsed or with the form of transfer duly executed) at the office of the registrar or at the office of any transfer agent we designate for that purpose. Unless otherwise provided in the senior debt securities to be transferred or exchanged, no service charge will be made for any registration of transfer or exchange, but we may require payment of any taxes or other governmental charges. We have appointed the Senior Indenture Trustee as registrar. Any transfer agent (in addition to the registrar) initially designated by us for any senior debt securities will be named in the applicable prospectus supplement or pricing supplement. We may at any time designate additional transfer agents or rescind the designation of any transfer agent or approve a change in the office through which any transfer agent acts, except that we will be required to maintain a transfer agent in each place of payment for the senior debt securities of each series.

If the senior debt securities of any series are to be redeemed, we will not be required to:

- issue, register the transfer of, or exchange any senior debt securities of, that series during a period beginning at the opening of business 15 days before any selection of senior debt securities for redemption and ending on the day of mailing or sending of the relevant notice of redemption; or
- register the transfer of or exchange any senior debt securities so selected for redemption, in whole or in part, except the unredeemed portion of any senior debt security being redeemed in part.

Global Senior Debt Securities

The senior debt securities of each series may be issued in whole or in part in global form. A senior debt security in global form will be deposited with, or on behalf of, a depository, which will be named in an applicable prospectus supplement or pricing supplement, if any. A global senior debt security shall be issued in registered form and in either temporary or definitive form. A global senior debt security may not be transferred, except as a whole, among the depository for that senior debt security and its nominees and their respective successors. If any senior debt securities of a series are issuable as global senior debt securities, the applicable prospectus supplement or pricing supplement, if any, will describe any circumstances when beneficial owners of interests in that global senior debt security may exchange their interests for definitive senior debt securities of like series and tenor and principal amount in any authorized form and denomination.

Discharge

Unless otherwise indicated in an applicable prospectus supplement or pricing supplement, if any, we may terminate at any time our obligations under the Senior Indenture with respect to any series of senior debt securities (other than certain limited obligations, such as the obligation to transfer and exchange senior debt securities of that series) by (1) (a) delivering all of the outstanding senior debt securities of that series to the Senior Indenture Trustee to be cancelled or (b) depositing with the Senior Indenture Trustee in trust funds or non-callable United States government or government-guaranteed obligations sufficient without reinvestment to pay all remaining principal and interest on the series of senior debt securities and (2) complying with certain other provisions of the Senior Indenture.

If we elect to discharge our obligations by depositing cash or United States government or government guaranteed obligations as described above, under present law such discharge is likely to be treated for United States federal income tax purposes as a redemption of the senior debt securities of that series prior to maturity in exchange for the property deposited in trust. In that event, each holder would generally recognize, at the time of discharge, gain or loss for United States federal income tax purposes measured by the difference between (1) the sum of (a) the amount of any cash and (b) the fair market value of any property deposited in trust deemed received by such holder (unless attributable to accrued interest) and (2) such holder's tax basis in the senior debt securities deemed surrendered. After the discharge, each such holder would likely be treated as if it held an undivided interest in the cash (or investments made therewith) and the property held in trust (or investments made with interest received therefrom). Each such holder would generally be subject to tax liability in respect of interest income and original issue discount, if applicable, thereon and would recognize any gain or loss upon any disposition, including redemption, of the assets held in trust. Although tax might be owed, the holder of a discharged senior debt security would not receive cash (except for current payments of interest on that senior debt security) until the maturity or earlier redemption (or, if applicable, repurchase by us at the option of the holder) of that senior debt security. United States federal income tax treatment of this nature could affect the purchase price that a holder would receive upon the sale of the senior debt securities. You are urged to consult with your tax advisor regarding the tax consequences of the discharge of our obligations.

Information Concerning the Senior Indenture Trustee

The Senior Indenture Trustee, other than during the occurrence and continuance of an event of default under the Senior Indenture, undertakes to perform only those duties as are specifically set forth in the Senior Indenture and, upon an event of default under the Senior Indenture, must use the same degree of care as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, the Senior Indenture Trustee is under no obligation to exercise any of the rights or powers given it by the Senior Indenture at the request or direction of any holder of senior debt securities unless the Senior Indenture Trustee is offered reasonable security or indemnity by that holder against the costs, expenses and liabilities that it might incur. The Senior Indenture Trustee is not required to spend or risk its own money or otherwise become financially liable while performing its duties unless it reasonably believes that it will be repaid or receive adequate indemnity.

The Bank of New York Mellon is a participating lender under our revolving credit agreement and provides commercial banking services to us and our affiliates. The Bank of New York Mellon Trust Company, N.A. is the Senior Indenture Trustee and will also act as Subordinated Indenture Trustee. However, if The Bank of New York Mellon Trust Company, N.A. acquires any conflicting interest when an event of default is pending, it must (with certain exceptions) eliminate the conflict or resign.

Payment and Payment Agents

The person in whose name a senior debt security is registered will be treated as the owner of such security for the purpose of receiving payment of principal and, unless otherwise indicated in an applicable prospectus supplement or pricing supplement, if any, interest on such senior debt security and for all other purposes.

Unless otherwise indicated in the applicable prospectus supplement or pricing supplement, if any, payment of interest on any senior debt securities on any interest payment date will be made to the person in whose name those senior debt securities (or one or more predecessor securities) are registered at the close of business on the regular record date for the interest, except as otherwise provided by the procedures of the depository. Unless

otherwise indicated in the applicable prospectus supplement or pricing supplement, if any, principal and interest on the senior debt securities of a particular series will be payable at the office of the paying agents that we designate, except that payments of interest may, at our option, be made by wire transfer or check mailed to the address of the person entitled thereto.

We will be required to maintain a paying agent in each place of payment for the senior debt securities of a particular series. Unless otherwise indicated in the applicable prospectus supplement or pricing supplement, if any, the corporate trust office or agency of the Senior Indenture Trustee in The City of New York will be designated as the paying agent for payments with respect to senior debt securities.

All moneys that we pay to a paying agent or the Senior Indenture Trustee for the payment of the principal or interest, if any, on any senior debt securities which remain unclaimed at the end of two years after that principal or interest has become due and payable will be repaid to us, and the holder of the security thereafter may look only to us for payment thereof.

Unless otherwise indicated in an applicable prospectus supplement or pricing supplement, if any, interest shall be computed, for fixed rate securities, on the basis of a 360-day year comprised of twelve 30-day months, and, for variable rate securities, on the basis of the actual number of days in the interest period divided by 360.

Governing Law

The Senior Indenture and senior debt securities will be governed by and construed in accordance with the law of the State of New York (without regard to conflicts of laws principles thereof).

DESCRIPTION OF SUBORDINATED DEBT SECURITIES

General

We may issue one or more series of subordinated debt securities pursuant to this prospectus. We may issue the subordinated debt securities under an indenture (the “Subordinated Indenture”), to be entered into in the future among us, the subsidiary guarantors of such debt securities, if any, and The Bank of New York Mellon Trust Company, N.A., or another entity, as trustee (“Subordinated Indenture Trustee”). The form of Subordinated Indenture is included as an exhibit to the registration statement of which this prospectus is a part.

Below is a description of certain general terms of the subordinated debt securities. The description is not complete and is subject to and qualified in its entirety by reference to the Subordinated Indenture. The particular terms of a series of subordinated debt securities will be described in a prospectus supplement and, if applicable, a pricing supplement. Capitalized terms used but not defined in this summary have the meanings specified in the Subordinated Indenture.

The subordinated debt securities will be unsecured and will be subordinated and junior in priority of payment to our Senior Indebtedness (as defined below). The Subordinated Indenture is subject to the Trust Indenture Act. The Subordinated Indenture does not limit the amount of Senior Indebtedness or subordinated debt securities which we may issue, nor does it limit us or our subsidiaries from issuing any debt.

Each prospectus supplement, together with a pricing supplement, if applicable, will describe the terms relating to a series of subordinated debt securities, which may include:

- the title;
- any limit on the amount that may be issued (unless expressly provided in the applicable prospectus supplement or pricing supplement, a series of our subordinated debt securities may be re-opened from time to time for the issuance of additional subordinated debt securities of that series subject to any terms and conditions set forth in or established pursuant to the Subordinated Indenture);
- the price at which that series of subordinated debt securities will be issued, which may be at a discount;
- whether or not that series of subordinated debt securities will be issued in global form, and, if applicable, who the depositary will be;
- the maturity date(s) or the method of determining the maturity date(s);
- the person to whom any interest will be payable on any subordinated debt security, if other than the person in whose name that security is registered at the close of business on the regular record date;
- the interest rate(s), if any, (which may be fixed or variable) or the method for determining the rate(s) and the date(s) interest will begin to accrue, the date(s) interest will be payable and the regular record date(s) for interest payment date(s);
- the place(s) where payments shall be payable, subordinated debt securities may be surrendered for registration of transfer, securities may be surrendered for exchange, and notices and demands to or upon us may be served;
- the period(s) within which, and the price(s) at which, that series of subordinated debt securities may, pursuant to any optional or mandatory redemption provisions, be redeemed, in whole or in part, and other related terms and conditions;
- any mandatory or optional sinking fund provisions or any provisions for remarketing that series of subordinated debt securities and other related terms and provisions;
- the denominations in which that series of subordinated debt securities will be issued, if other than denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof;
- the currency or currencies, including composite currencies or currency units, in which that series of subordinated debt securities may be denominated or in which payment of the principal of and interest,

TABLE OF CONTENTS

if any, on that series of subordinated debt securities shall be payable, if other than the currency of the United States of America, and, if so, whether that series of subordinated debt securities may be satisfied and discharged other than as provided in Article Four of the Subordinated Indenture;

- if the amounts of payments of principal of and interest on, if any, that series of subordinated debt securities are to be determined by reference to an index, formula or other method, or based on a coin or currency other than that in which that series of subordinated debt securities are stated to be payable, the manner in which such amounts shall be determined and the calculation agent, if any, with respect thereto;
- if other than the principal amount thereof, the portion of the principal amount of that series of subordinated debt securities that will be payable upon declaration of acceleration of the maturity thereof pursuant to an event of default;
- whether we will pay additional amounts on any of the subordinated debt securities and coupons, if any, of the series to any non-United States holder in respect of any tax, assessment or governmental charge withheld or deducted, and under what circumstances and with what procedures we will pay such additional amounts;
- if other than as defined in the Subordinated Indenture, the meaning of “Business Day” when used with respect to that series of subordinated debt securities;
- if that series of subordinated debt securities may be issued or delivered (whether upon original issuance or upon exchange of a temporary security of such series or otherwise), or any installment of principal or interest is payable, only upon receipt of certain certificates or other documents or satisfaction of other conditions in addition to those specified in the Subordinated Indenture, the forms and terms of those certificates, documents or conditions;
- the right, if any, to extend the interest payment periods and the duration of the extensions;
- the terms pursuant to which any series of subordinated debt securities will be subordinate to any of our debt, if different from those described under “—Subordination” below;
- any addition to, or modification or deletion of, any event of default, covenant or other term or provision specified in the Subordinated Indenture with respect to that series of subordinated debt securities; and
- any other terms, which other terms may, subject, in the case of an existing outstanding series of subordinated debt securities, to the provisions of the Subordinated Indenture described below under “—Modification of Subordinated Indenture; Waiver,” amend, supplement or replace any of the terms of the Subordinated Indenture insofar as it concerns the subordinated debt securities of that series.

Each prospectus supplement or pricing supplement, as applicable, may describe certain United States federal income tax considerations applicable to the purchase, holding and disposition of the subordinated debt securities that the prospectus supplement or pricing supplement covers, as applicable.

Subordination

The payment of the principal of, and premium, if any, and interest on, and any other amounts payable with respect to the subordinated debt securities will be subordinated, to the extent and in the manner set forth in the Subordinated Indenture, in right of payment to the prior payment in full of all Senior Indebtedness, whether such Subordinated Indebtedness is outstanding at the time such subordinated debt securities are issued or incurred thereafter. The Subordinated Indenture does not limit or prohibit us from incurring Senior Indebtedness. Holders of subordinated debt securities should also recognize that contractual provisions in the Subordinated Indenture may prohibit us from making payments on the subordinated debt securities under specified circumstances.

“Senior Indebtedness” means the principal of, premium, if any, and interest on (including interest accruing after the filing of a petition initiating any proceeding pursuant to any Federal bankruptcy law or any other applicable Federal or State law, but only to the extent allowed or permitted to the holder of such Indebtedness of the Company against the bankruptcy or any other insolvency estate of the Company in such proceeding) and other amounts due on or in connection with any Indebtedness of the Company incurred, assumed or guaranteed by the Company, whether outstanding on the date of the Subordinated Indenture or thereafter incurred, assumed or

TABLE OF CONTENTS

guaranteed and all renewals, extensions and refundings of any such Indebtedness of the Company; *provided, however,* that the following will not constitute Senior Indebtedness:

- (a) any of our Indebtedness as to which, in the instrument creating the same or evidencing the same or pursuant to which the same is outstanding, it is expressly provided that such Indebtedness shall be subordinated to or *pari passu* with the subordinated debt securities;
- (b) Indebtedness of the Company in respect of the subordinated debt securities;
- (c) any of our Indebtedness constituting trade accounts payable arising in the ordinary course of business;
- (d) any of our Indebtedness initially issued to any Capital Trust (as defined below) in connection with an issuance by such Capital Trust of preferred securities or other securities similar to preferred securities; and
- (e) any of our Indebtedness owed to any of our subsidiaries.

“Indebtedness,” as applied to a person, means, as of the date on which Indebtedness is to be determined and without duplication (i) all obligations represented by notes, bonds, debentures or similar evidences of indebtedness; (ii) all indebtedness for borrowed money or for the deferred purchase price of property or services other than, in the case of any such deferred purchase price, on normal trade terms; (iii) all rental obligations as lessee under leases which shall have been or should be, in accordance with generally accepted accounting principles, recorded as capital leases; and (iv) all Indebtedness of others for the payment of which such person is responsible or liable as obligor or guarantor.

“Capital Trust” means any Delaware business trust, or any other similar trust, or any partnership or other entity affiliated with us created for the purpose of issuing securities in connection with the issuance of subordinated debt securities under the Subordinated Indenture.

Even if the subordination provisions prevent us from making any payment when due on the subordinated debt securities of any series, we will be in default on our obligations under that series if we do not make the payment when due (subject to any applicable grace period). This means that the Subordinated Trustee and the holders of subordinated debt securities of that series can take action against us, but they will not receive any money until the claims of the holders of Senior Indebtedness have been fully satisfied.

Payment Over of Proceeds Upon Dissolution, Etc. The Subordinated Indenture provides that, upon any distribution of our assets in the event of:

- any insolvency or bankruptcy case or proceeding, or any receivership, liquidation, reorganization or other similar case or proceeding in connection therewith, relative to us or our creditors, as such, or to our assets, or
- our liquidation, dissolution or other winding up, whether voluntary or involuntary and whether or not involving insolvency or bankruptcy, or
- any assignment for the benefit of our creditors or any other marshalling of our assets and liabilities,

then and in such event:

- (a) the holders of Senior Indebtedness shall be entitled to receive payment in full of all amounts due or to become due on or in respect of all Senior Indebtedness, or provision shall be made for such payment in cash, before the holders of the subordinated debt securities of any series are entitled to receive any payment on account of the principal amount, interest or any such other amounts as may be payable under the Subordinated Indenture, if any, in respect of the subordinated debt securities of such series; and
- (b) any payment or distribution of our assets of any kind or character, whether in cash, property or securities, by set-off or otherwise, to which the holders of the subordinated debt securities or the Subordinated Indenture Trustee would be entitled but for the subordination provisions of the Subordinated Indenture, including any such payment or distribution which may be payable or deliverable by reason of the payment of any other Indebtedness of the Company being subordinated to the payment of the securities of such series, shall be paid by the liquidating trustee or agent or other person making such payment or distribution, whether a trustee in bankruptcy, a receiver or liquidating

TABLE OF CONTENTS

trustee or otherwise, directly to the holders of Senior Indebtedness or their representative or representatives or to the trustee or trustees under any indenture under which any instruments evidencing any of such Senior Indebtedness may have been issued, ratably according to the aggregate amounts remaining unpaid on account of the principal of, and premium, if any, and interest on the Senior Indebtedness held or represented by each, to the extent necessary to make payment in full of all Senior Indebtedness remaining unpaid, after giving effect to any concurrent payment or distribution to the holders of such Senior Indebtedness.

In the event that, notwithstanding the provisions described in the preceding paragraph, the Subordinated Indenture Trustee or the holder of any subordinated debt security of any series receives any payment or distribution of our assets of any kind or character, whether in cash, property or securities, including any such payment or distribution which may be payable or deliverable by reason of the payment of any other Indebtedness of the Company being subordinated to the payment of the securities of such series, before all Senior Indebtedness is paid in full or payment thereof provided for, and if such fact has been made known to the Subordinated Indenture Trustee as provided in the Subordinated Indenture, or, as the case may be, such holder of subordinated debt securities, then and in such event such payment or distribution shall be paid over or delivered forthwith to the trustee in bankruptcy, receiver, liquidating trustee, custodian, assignee, agent or other person making payment or distribution of our assets for application to the payment of all Senior Indebtedness remaining unpaid, to the extent necessary to pay all Senior Indebtedness in full, after giving effect to any concurrent payment or distribution to or for the holders of Senior Indebtedness.

By reason of such subordination, in the event of any distribution of our assets in connection with any insolvency, bankruptcy, receivership, liquidation, reorganization or other similar proceedings relating to us, or our liquidation, dissolution or winding up, or any assignment for the benefit of our creditors or other marshalling of our assets and liabilities:

- holders of Senior Indebtedness will be entitled to be paid in full before payments may be made on the subordinated debt securities and the holders of subordinated debt securities will be required to pay over their share of such distribution, to the extent made in respect of such subordinated debt securities, to the holders of Senior Indebtedness until such Senior Indebtedness is paid in full; and
- our creditors who are neither holders of subordinated debt securities nor holders of Senior Indebtedness may recover more, ratably, than the holders of the subordinated debt securities.

Furthermore, such subordination may result in a reduction or elimination of payments to the holders of subordinated debt securities.

Our consolidation with, or our merger into, another corporation or our liquidation or dissolution following the conveyance or transfer of all or substantially all of our assets to another person upon the terms and conditions described below under “—Consolidation, Merger or Sale,” will not be deemed a dissolution, winding up, liquidation, reorganization, assignment for the benefit of creditors or marshalling of our assets and liabilities for the purposes of the subordination provisions of the Subordinated Indenture if the person formed by such consolidation or into which we are merged or the person which acquires by conveyance or transfer all or substantially all of our assets, as the case may be, will, as a part of such consolidation, merger, conveyance or transfer, comply with the conditions described under “—Consolidation, Merger or Sale.”

Prior Payment to Senior Indebtedness upon Acceleration of Subordinated Debt Securities. In the event that any subordinated debt securities of any series are declared due and payable before their stated maturity, the holders of Senior Indebtedness will be entitled to receive payment in full of all amounts due or to become due on or in respect of all Senior Indebtedness or provision will be made for such payment in cash, before the holders of the subordinated debt securities of such series are entitled to receive any payment from us on account of the principal, premium, interest or any other amounts that may be payable in respect of the subordinated debt securities of such series or on account of the purchase or other acquisition of subordinated debt securities of such series. In the event that we make any payment to the Subordinated Indenture Trustee or the holder of any subordinated debt securities of any series that is prohibited by the provisions described in the immediately preceding sentence, then such payment generally must be paid over and delivered to us by the person holding such payment for the benefit of the holders of Senior Indebtedness. The provisions described in this paragraph do not apply to any payment with respect to which the provisions described above under the caption “—Payment Over of Proceeds Upon Dissolution, Etc.” would be applicable.

Default in Senior Indebtedness. In the event and during the continuation of any default by us in the payment of principal, premium, if any, interest or any other payment due on any of our Senior Indebtedness beyond any applicable grace period with respect thereto, or in the event that the maturity of any of our Senior Indebtedness has been accelerated because of a default, then, in any such case, no payment will be made by us with respect to the principal, premium, or interest or any other amounts that may be payable on the subordinated debt securities until such default is cured or waived or ceases to exist or any such acceleration or demand for payment has been rescinded.

Other. We are required to give prompt written notice to the Subordinated Indenture Trustee of any fact known to us which would prohibit the making of any payment in respect of the subordinated debt securities of any series.

If this prospectus is being delivered in connection with the offering of subordinated debt securities, the accompanying prospectus supplement or pricing supplement or information incorporated by reference herein will set forth the approximate amount of Senior Indebtedness outstanding as of a recent date.

Consolidation, Merger or Sale

The Subordinated Indenture generally permits us to consolidate with, merge into or convey, transfer or lease our properties and assets substantially as an entirety, to any person, so long as, immediately after giving effect to such transaction, no event of default under the Subordinated Indenture or event which, after notice or lapse of time or both, would become an event of default shall have occurred and be continuing. However, any successor or acquiror of such assets must assume all of our obligations under the Subordinated Indenture and the subordinated debt securities and be organized and existing under the laws of the United States of America, any state thereof or the District of Columbia.

Events of Default Under the Subordinated Indenture

The following are events of default under the Subordinated Indenture with respect to each series of subordinated debt securities:

- default in the payment of any installment of interest upon any subordinated debt security of such series when it becomes due and payable, and continuance of such default for a period of 30 days; or
- default in the payment of the principal of any subordinated debt security of such series when due; or
- default in the performance, or breach, of any covenant or warranty of the Company in the Subordinated Indenture (other than a covenant or warranty a default in whose performance or whose breach is specifically dealt with or which has been expressly included in the Subordinated Indenture solely for the benefit of a series of subordinated debt securities other than such series), and continuance of such default or breach for a period of 90 days after there has been given, by registered or certified mail, to the Company by the Trustee or to the Company and the Trustee by the Holders of at least 25% in principal amount of the outstanding subordinated debt securities of such series a written notice specifying such default or breach and requiring it to be remedied and stating that such notice is a “Notice of Default” hereunder; or
- the entry of a decree or order by a court having jurisdiction in the premises adjudging the Company a bankrupt or insolvent, or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition of or in respect of the Company under Federal bankruptcy law or any other applicable Federal or State law, or appointing a receiver, liquidator, assignee, trustee, sequestrator or other similar official of the Company or of any substantial part of its property, or ordering the winding up or liquidation of its affairs, and the continuance of any such decree or order unstayed and in effect for a period of 60 consecutive days; or
- the institution by the Company of proceedings to be adjudicated a bankrupt or insolvent, or the consent by it to the institution of bankruptcy or insolvency proceedings against it, or the filing by it of a petition or answer or consent seeking reorganization or relief under Federal bankruptcy law or any other applicable Federal or state law, or the consent by it to the filing of such petition or to the appointment of a receiver, liquidator, assignee, trustee, sequestrator or similar official of the Company or of any substantial part of its property, or the making by it of an assignment for the benefit of creditors, or the admission by it in writing of its inability to pay its debts generally as they become due, or the taking of corporate action by the Company in furtherance of any such action; or

- any other event designated as an event of default in the prospectus supplement or pricing supplement, if any, with respect to subordinated debt securities of that series.

If an event of default with respect to subordinated debt securities of any series occurs and is continuing, the Subordinated Indenture Trustee or the holders of not less than 25% in principal amount of the outstanding subordinated debt securities of that series, by notice in writing to us (and to the Subordinated Indenture Trustee if notice is given by such holders), may declare the principal of (or if such subordinated debt securities are discount securities, the portion of the principal amount specified in the applicable prospectus supplement or pricing supplement, if any), and accrued interest, if any, due and payable immediately. At any time after such a declaration of acceleration has been made and before a judgment or decree for payment of the money due has been obtained holders of a majority in principal amount of the outstanding subordinated debt securities of that series, by written notice to us and the Subordinated Indenture Trustee, may rescind and annul such declaration and its consequences if:

- we have paid or deposited with the Subordinated Indenture Trustee a sum sufficient to pay all overdue installments of interest on the subordinated debt securities of that series, the principal of any subordinated debt securities of that series which have become due otherwise than by such declaration of acceleration and interest thereon, to the extent payment of such interest is lawful, interest on overdue installments of interest, all sums paid or advanced by the Subordinated Indenture Trustee, the reasonable compensation, expenses, disbursements and advances of the Subordinated Indenture Trustee, its agents and counsel and any other amount due to the Subordinated Indenture Trustee under the Subordinated Indenture, and
- all events of default with respect to outstanding subordinated debt securities of that series, other than the non-payment of the principal of and interest on such subordinated debt securities which became due solely by such declaration of acceleration, have been cured or waived in accordance with the terms of the Subordinated Indenture.

The holders of a majority in principal amount of the outstanding subordinated debt securities of any series may waive any past default with respect to that series and its consequences, except defaults regarding:

- payment of principal or interest; or
- covenants that cannot be modified or amended without the consent of the holder of each outstanding subordinated debt security of such series affected (as described under “—Modification of Subordinated Indenture; Waiver” below).

Any waiver shall cure such default and the corresponding event of default.

Subject to the terms of the Subordinated Indenture, the Subordinated Indenture Trustee will be under no obligation to exercise any of its rights or powers under the Subordinated Indenture at the request or direction of any of the holders of the applicable series of subordinated debt securities, unless the holders have offered the Subordinated Indenture Trustee reasonable security or indemnity against costs, expenses and liabilities to be incurred in compliance with such request. The holders of a majority in principal amount of the outstanding subordinated debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Subordinated Indenture Trustee, or exercising any trust or power conferred on the Subordinated Indenture Trustee, with respect to the subordinated debt securities of that series, *provided* that:

- the direction given to the Subordinated Indenture Trustee is not in conflict with any law or the Subordinated Indenture;
- the Subordinated Indenture Trustee may take any other action deemed proper by it which is not inconsistent with that direction; and
- the Subordinated Indenture Trustee has not determined that the action would be unjustly prejudicial to the holders not involved in the proceeding.

TABLE OF CONTENTS

A holder of the subordinated debt securities of any series will have the right to institute a proceeding under the Subordinated Indenture or to appoint a receiver or trustee, or to seek other remedies only if:

- the holder has given written notice to the Subordinated Indenture Trustee of a continuing event of default with respect to the subordinated debt securities of that series;
- the holders of not less than 25% in principal amount of the outstanding subordinated debt securities of that series have made written request, and have offered reasonable indemnity, to the Subordinated Indenture Trustee to institute the proceedings as trustee; and
- the Subordinated Indenture Trustee does not institute the proceeding, and does not receive from the holders of a majority in principal amount of the outstanding subordinated debt securities of that series other conflicting directions, within 60 days after the notice, request and offer of indemnity.

The Subordinated Indenture provides that no holder or group of holders of subordinated debt securities will have any right to affect, disturb or prejudice the rights of other holders, obtain or seek priority or preference over another holder or enforce its rights under the Subordinated Indenture except as provided in the Subordinated Indenture for the equal and ratable benefit of all holders.

These limitations on instituting proceedings do not apply to a suit instituted by a holder of subordinated debt securities to enforce the payment of the principal of or interest on the subordinated debt securities.

We will periodically file statements with the Subordinated Indenture Trustee regarding our compliance with the conditions and covenants in the Subordinated Indenture.

Modification of Subordinated Indenture; Waiver

We and the Subordinated Indenture Trustee may amend or supplement the Subordinated Indenture without the consent of any holders to, among other things:

- evidence the succession of another person and the assumption by such person of our covenants in the Subordinated Indenture and subordinated debt securities;
- add to our covenants, agreements and obligations for the benefit of the holders of all subordinated debt securities or any series thereof, or to surrender any right or power the Subordinated Indenture confers upon us;
- add to or change any of the provisions of the Subordinated Indenture to permit the issuance of subordinated debt securities in uncertificated form;
- establish the form and terms of the subordinated debt securities of any series and (unless prohibited by the terms of the subordinated debt securities of any series pursuant to the Subordinated Indenture) to provide for the re-opening of a series of subordinated debt securities and for the issuance of additional subordinated debt securities of such series;
- evidence and provide for the acceptance of appointment under the Subordinated Indenture of a successor Subordinated Indenture Trustee with respect to the subordinated debt securities of one or more series;
- cure any ambiguity, to correct or supplement any provision in the Subordinated Indenture which may be inconsistent with any other provision in the Subordinated Indenture or make other provisions with respect to matters or questions arising under the Subordinated Indenture;
- add, change or eliminate any provisions of the Subordinated Indenture (which addition, change or elimination may apply to one or more series of subordinated debt securities), *provided* that the addition, change or elimination neither (a) applies to any subordinated debt security of any series created prior to the execution of the supplemental indenture that is entitled to the benefit of the provision nor (b) modifies the rights of holders of those subordinated debt securities with respect to those modified provisions;
- secure the subordinated debt securities; or
- change anything else that does not adversely affect the interests of any holder of subordinated debt securities.

TABLE OF CONTENTS

In addition, under the Subordinated Indenture, the rights of holders of a series of subordinated debt securities may be changed by us and the Subordinated Indenture Trustee with the written consent of the holders of at least a majority in principal amount of the outstanding subordinated debt securities of each series that is affected. However, no change may be made without the consent of the holder of each outstanding subordinated debt security affected if such change would, among other things:

- change the stated maturity of principal of, or any installment of principal or interest on, any such subordinated debt security;
- reduce the principal amount of a discount security payable upon declaration of acceleration;
- reduce the principal amount of, or the rate of interest on, or reduce any premium payable on, any of the subordinated debt securities;
- change the place where, or currency in which, any principal of or interest on any such subordinated debt security is payable;
- impair the right to institute suit for the enforcement of any payment on or with respect to any of the subordinated debt securities;
- change the terms of the subordination of the subordinated debt securities in a manner adverse to the holders of any series of outstanding subordinated debt securities;
- reduce the percentage in principal amount of outstanding subordinated debt securities of any series, the holders of which are required to consent to any such change, or the consent of whose holders is required for any waiver (of compliance with certain provisions of the Subordinated Indenture or certain defaults thereunder and their consequences) with respect to the subordinated debt securities of such series provided for in the Subordinated Indenture; and
- modify any of the foregoing requirements or the provisions regarding waivers of any covenant or past default other than to increase the percentage of holders required for consent or waiver or add consent requirements for modification of waiver or other provisions.

Form, Exchange and Transfer

The senior debt securities of each series will be issued as registered securities. Unless otherwise specified in the applicable prospectus supplement or the pricing supplement, if any, subordinated debt securities will be issued in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof. Subject to the terms of the Subordinated Indenture and the limitations applicable to global securities described in the applicable prospectus supplement or the pricing supplement, if any, subordinated debt securities will be exchangeable for other subordinated debt securities of the same series, in any authorized denomination and of like tenor and aggregate principal amount.

Subject to the terms of the Subordinated Indenture and the limitations applicable to global subordinated debt securities set forth in the applicable prospectus supplement or pricing supplement, if any, subordinated debt securities may be presented for exchange or for registration of transfer (duly endorsed or with the form of transfer duly executed) at the office of the registrar or at the office of any transfer agent we designate for that purpose. Unless otherwise provided in the subordinated debt securities to be transferred or exchanged, no service charge will be made for any registration of transfer or exchange, but we may require payment of any taxes or other governmental charges. We have appointed the Subordinated Indenture Trustee as registrar. Any transfer agent (in addition to the registrar) initially designated by us for any subordinated debt securities will be named in the applicable prospectus supplement or pricing supplement. We may at any time designate additional transfer agents or rescind the designation of any transfer agent or approve a change in the office through which any transfer agent acts, except that we will be required to maintain a transfer agent in each place of payment for the subordinated debt securities of each series.

TABLE OF CONTENTS

If the subordinated debt securities of any series are to be redeemed, we will not be required to:

- issue, register the transfer of, or exchange any subordinated debt securities of, that series during a period beginning at the opening of business 15 days before any selection of subordinated debt securities for redemption and ending on the day of mailing or sending of the relevant notice of redemption; or
- register the transfer of or exchange any subordinated debt securities so selected for redemption, in whole or in part, except the unredeemed portion of any subordinated debt security being redeemed in part.

Global Subordinated Debt Securities

The subordinated debt securities of each series may be issued in whole or in part in global form. A subordinated debt security in global form will be deposited with, or on behalf of, a depository, which will be named in an applicable prospectus supplement or pricing supplement, if any. A global subordinated debt security shall be issued in registered form in either temporary or definitive form. A global subordinated debt security may not be transferred, except as a whole among the depository for that subordinated debt security and its nominees and their respective successors. If any subordinated debt securities of a series are issuable as global subordinated debt securities, the applicable prospectus supplement or pricing supplement, if any, will describe any circumstances when beneficial owners of interests in that global subordinated debt security may exchange their interests for definitive subordinated debt securities of like series and tenor and principal amount in any authorized form and denomination.

Discharge

Unless otherwise indicated in an applicable prospectus supplement or pricing supplement, if any, we may terminate at any time our obligations under the Subordinated Indenture with respect to any series of subordinated debt securities (other than certain limited obligations, such as the obligation to transfer and exchange subordinated debt securities of that series) by (1)(a) delivering all of the outstanding subordinated debt securities of that series to the Subordinated Indenture Trustee to be cancelled or (b) depositing with the Subordinated Indenture Trustee in trust funds or non-callable United States government or government-guaranteed obligations sufficient without reinvestment to pay all remaining principal and interest on the series of subordinated debt securities and (2) complying with certain other provisions of the Subordinated Indenture.

If we elect to discharge our obligations by depositing cash or United States government or government guaranteed obligations as described above, under present law such discharge is likely to be treated for United States federal income tax purposes as a redemption of the subordinated debt securities of that series prior to maturity in exchange for the property deposited in trust. In that event, each holder would generally recognize, at the time of discharge, gain or loss for United States federal income tax purposes measured by the difference between (1) the sum of (a) the amount of any cash and (b) the fair market value of any property deposited in trust deemed received by such holder (unless attributable to accrued interest) and (2) such holder's tax basis in the subordinated debt securities deemed surrendered. After the discharge, each such holder would likely be treated as if it held an undivided interest in the cash (or investments made therewith) and the property held in trust (or investments made with interest received therefrom). Each such holder would generally be subject to tax liability in respect of interest income and original issue discount, if applicable, thereon and would recognize any gain or loss upon any disposition, including redemption, of the assets held in trust. Although tax might be owed, the holder of a discharged subordinated debt security would not receive cash (except for current payments of interest on that subordinated debt security) until the maturity or earlier redemption (or, if applicable, repurchase by us at the option of the holder) of that subordinated debt security. United States federal income tax treatment of this nature could affect the purchase price that a holder would receive upon the sale of the subordinated debt securities. You are urged to consult with your tax advisor regarding the tax consequences of the discharge of our obligations.

Information Concerning the Subordinated Indenture Trustee

The Subordinated Indenture Trustee, other than during the occurrence and continuance of an event of default under the Subordinated Indenture, undertakes to perform only those duties as are specifically set forth in the Subordinated Indenture and, upon an event of default under the Subordinated Indenture, must use the same

TABLE OF CONTENTS

degree of care as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, the Subordinated Indenture Trustee is under no obligation to exercise any of the rights or powers given it by the Subordinated Indenture at the request or direction of any holder of subordinated debt securities unless the Subordinated Indenture Trustee is offered reasonable security or indemnity by that holder against the costs, expenses and liabilities that it might incur. The Subordinated Indenture Trustee is not required to spend or risk its own money or otherwise become financially liable while performing its duties unless it reasonably believes that it will be repaid or receive adequate indemnity.

The Bank of New York Mellon is a participating lender under our revolving credit agreement and provides commercial banking services to us and our affiliates. The Bank of New York Mellon Trust Company, N.A. is the Subordinated Indenture Trustee and will also act as the Senior Indenture Trustee. However, if The Bank of New York Mellon Trust Company, N.A. acquires any conflicting interest when an event of default is pending, it must (with certain exceptions) eliminate the conflict or resign.

Payment and Payment Agents

The person in whose name a debt security subordinated is registered will be treated as the owner of such security for the purpose of receiving payment of principal and, unless otherwise indicated in an applicable prospectus supplement or pricing supplement, if any, interest on such subordinated debt security and for all other purposes.

Unless otherwise indicated in the applicable prospectus supplement or pricing supplement, if any, payment of interest on any subordinated debt securities on any interest payment date will be made to the person in whose name those subordinated debt securities (or one or more predecessor securities) are registered at the close of business on the regular record date for the interest, except as otherwise provided by the procedures of the depository. Unless otherwise indicated in the applicable prospectus supplement or pricing supplement, if any, principal and interest on the subordinated debt securities of a particular series will be payable at the office of the paying agents that we designate, except that payments of interest may, at our option, be made by wire transfer or check mailed to the address of the person entitled thereto.

We will be required to maintain a paying agent in each place of payment for the subordinated debt securities of a particular series. Unless otherwise indicated in the applicable prospectus supplement or pricing supplement, if any, the corporate trust office of the Subordinated Indenture Trustee in the City of New York will be designated as the paying agent for payments with respect to subordinated debt securities.

All moneys that we pay to a paying agent or the Subordinated Indenture Trustee for the payment of the principal or interest, if any, on any subordinated debt securities which remain unclaimed at the end of two years after that principal or interest has become due and payable will be repaid to us, and the holder of the security thereafter may look only to us for payment thereof.

Unless otherwise indicated in an applicable prospectus supplement or pricing supplement, if any, interest shall be computed, for fixed rate securities, on the basis of a 360-day year comprised of twelve 30-day months, and, for variable rate securities, on the basis of the actual number of days in the interest period divided by 360.

Governing Law

The Subordinated Indenture and subordinated debt securities will be governed by and construed in accordance with the law of the State of New York (without regard to conflicts of laws principles thereof).

DESCRIPTION OF COMMON STOCK

General

The following summary describes the material provisions of our common stock. The summary in this prospectus is not complete. We urge you to read our Restated Certificate of Incorporation of Occidental Petroleum Corporation, as amended (“Certificate of Incorporation”), and our Amended and Restated By-laws of Occidental Petroleum Corporation (“Bylaws”), which are incorporated herein by reference as exhibits to the registration statement of which this prospectus is a part.

Our Certificate of Incorporation authorizes our board of directors, without further stockholder action, to provide for the issuance of up to 1,100,000,000 shares of common stock, par value \$0.20 per share. The common stock will, when issued, be fully paid and nonassessable.

Each prospectus supplement may describe certain United States federal income tax considerations applicable to the purchase, holding and disposition of the common stock that the prospectus supplement covers.

Dividend Rights

Subject to the dividend rights of the holders of any outstanding series of preferred stock, the holders of shares of common stock will be entitled to receive dividends when, as and if declared by our board of directors. We will pay those dividends either in cash, shares of common stock, or otherwise, at the rate and on the date or dates as declared by our board of directors. Accruals of dividends will not bear interest. As a Delaware corporation, we are subject to statutory limitations on the declaration and payment of dividends.

Liquidation Rights

In the event of any voluntary or involuntary liquidation, dissolution or winding up of our affairs, holders of common stock will be entitled to share ratably in our assets that are legally available for distribution to stockholders after payment of liabilities, and after the payment in full of the amounts required to be paid to the holders of any outstanding class or series of preferred stock. Because we are a holding company, holders of common stock may not receive assets of our subsidiaries in the event of our liquidation until the claims of creditors of such subsidiaries are paid, except to the extent that we are a creditor of, and may have recognized claims against, such subsidiaries.

Voting Rights

Each holder of common stock entitled to vote will have one vote for each one share of common stock held on all matters to be voted upon by our stockholders, including elections of directors.

Conversion, Redemption and Preemptive Rights

Holders of our common stock have no conversion, redemption, preemptive, subscription or similar rights.

Anti-Takeover Effects of our Certificate of Incorporation and Bylaws and of Delaware Law

Our Certificate of Incorporation and our Bylaws and Delaware law contain certain provisions that may have the effect of delaying, deferring or preventing a takeover attempt that a stockholder might consider in its best interest, including those attempts that result in a premium over the market price for the shares held by stockholders. Following is a description of certain of the anti-takeover effects of such provisions.

Special Meetings of Stockholders. Our Certificate of Incorporation and Bylaws currently provide that special meetings of our stockholders may be called by our board of directors or the Chairman of our board of directors. In addition, subject to certain procedural requirements contained in our Certificate of Incorporation and Bylaws, special meetings of stockholders may be called by the Secretary upon the written request of record holders of at least 25% of our outstanding common stock.

Advance Notice Requirements for Stockholder Proposals and Director Nominations. Our Bylaws provide that stockholders seeking to bring business before an annual meeting of stockholders, or to nominate candidates for election as directors at an annual or special meeting of stockholders, must provide timely notice to us thereof in

TABLE OF CONTENTS

writing within the time periods specified in our Bylaws. Our Bylaws also specify requirements as to the form and content of a stockholder's notice. These provisions may preclude some stockholders from bringing matters before the stockholders at an annual or special meeting or from making nominations for directors at an annual or special meeting.

Stockholder Action by Written Consent. Stockholders are permitted to take action without a meeting by written consent, subject to certain procedures specified in our Certificate of Incorporation and Bylaws.

Limitations on Stockholders' Ability to Change the Number of Directors. The number of directors to serve on our board of directors is fixed by our Bylaws, and, pursuant to our Bylaws, can only be changed by resolution of our board of directors. In addition, our Certificate of Incorporation provides that any vacancy on our board of directors (including any vacancy resulting from an increase in the number of directors) may be filled by a majority of our board of directors then in office. These provisions limit the ability of a stockholder to appoint new directors to our board of directors, and may have the effect of discouraging an attempt to obtain control of us by means of a proxy contest or otherwise.

Authorized but Unissued Capital Stock. Our Certificate of Incorporation authorizes our board of directors to issue one or more series of preferred stock, and to determine, with respect to any such series of preferred stock, the number of shares to be included in any series and the designation, relative powers, preferences, rights and qualifications, limitations or restrictions of such series of preferred stock. The DGCL does not require stockholder approval for any issuance of previously authorized shares of our capital stock. However, the listing requirements of the New York Stock Exchange ("NYSE"), which will apply so long as our common stock is listed on the NYSE, require stockholder approval of certain issuances of common stock or securities convertible into or exercisable for common stock equal to or exceeding 20% of the then outstanding voting power or then outstanding number of shares of our common stock. These additional shares may be used for a variety of corporate purposes, including future public offerings, to raise additional capital or to facilitate acquisitions.

One of the effects of the existence of unissued and unreserved common stock or preferred stock may be to enable our board of directors to issue shares to persons who support current management, which issuance could render more difficult or discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise. In addition, provisions which could discourage an unsolicited tender offer or takeover proposal, such as extraordinary voting, dividend, redemption or conversion rights, could be included in a series of preferred stock.

No Cumulative Voting. The DGCL provides that stockholders of a Delaware corporation are not entitled to the right to cumulate votes in the election of directors unless its certificate of incorporation provides otherwise. Our Certificate of Incorporation provides that holders of common stock do not have cumulative voting rights in the election of directors or otherwise. A cumulative voting provision could make it easier for minority stockholders to elect one or more directors to our board of directors.

General Corporation Law of the State of Delaware. We are a Delaware corporation that is subject to Section 203 of the DGCL. Section 203 provides that, subject to certain exceptions specified in the law, a Delaware corporation shall not engage in certain "business combinations" with any "interested stockholder" for a three-year period following the time that the stockholder became an interested stockholder unless:

- prior to such time, the board of directors approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the corporation's voting stock outstanding at the time the transaction commenced, excluding certain shares; or
- at or subsequent to that time, the business combination is approved by the board of directors of the corporation and by the affirmative vote of holders of at least 66²/3% of the outstanding voting stock that is not owned by the interested stockholder.

A "business combination" includes certain mergers, asset or stock sales and other transactions involving the interested stockholder. Subject to certain exceptions, an "interested stockholder" is a person who, together with that person's affiliates and associates, owns (or within the previous three years did own) 15% or more of our voting stock.

[TABLE OF CONTENTS](#)

Section 203 could prohibit or delay a merger or other takeover attempt and, accordingly, may discourage attempts to acquire us.

Stock Exchange Listing

Our common stock is listed on the NYSE under the symbol “OXY.”

Transfer Agent and Registrar

EQ Shareowner Services acts as transfer agent and registrar for our common stock.

DESCRIPTION OF PREFERRED STOCK

General

The following summary describes the material provisions of our preferred stock. The summary in this prospectus is not complete. We urge you to read our Certificate of Incorporation and our Bylaws, which are incorporated by reference as exhibits to the registration statement of which this prospectus is a part, and the certificate of designations establishing a particular series of preferred stock which will be filed with the Secretary of State of the State of Delaware and the SEC in connection with the offering of the preferred stock.

Our Certificate of Incorporation authorizes our board of directors, without further stockholder action, to provide for the issuance of up to 50,000,000 shares of preferred stock, par value \$1.00 per share, in one or more series, and to fix the number of shares to be included in any series and the designation, relative powers, preferences and rights and qualifications, limitations or restrictions of all shares of such series.

The particular terms of any series of preferred stock that we offer under this prospectus will be described in the applicable prospectus supplement relating to that series of preferred stock. Those terms may include:

- the number of shares of any series and the designation to distinguish the shares of such series from the shares of all other series;
- the purchase price of the preferred stock;
- the voting powers, if any, and whether such voting powers are full or limited, in any such series;
- the redemption provisions, if any, applicable to such series, including the redemption price or prices to be paid;
- whether dividends, if any, shall be cumulative or noncumulative, the dividend rate, or method of determining the dividend rate of such series, and the dates and preferences of dividends on such series;
- the rights of such series upon our voluntary or involuntary dissolution, or upon any distribution of our assets;
- the provisions, if any, pursuant to which the shares of such series are convertible into, or exchangeable for, shares of any other class or classes or of any other series of the same or any other class or classes of stock, or any other security, of ours or any other corporation, and the price or prices or the rates of exchange applicable thereto;
- the right, if any, to subscribe for or to purchase any securities of ours or any other corporation;
- the provisions, if any, of any sinking fund applicable to such series; and
- any other relative, participating, optional or other special powers, preferences, rights, qualifications, limitations or restrictions thereof.

Each prospectus supplement may describe certain United States federal income tax considerations applicable to the purchase, holding and disposition of the preferred stock that the prospectus supplement covers.

If the terms of any series of preferred stock being offered differ from the terms set forth in this prospectus, those terms will also be disclosed in the applicable prospectus supplement relating to that series of preferred stock.

The preferred stock will, when issued, be fully paid and nonassessable.

Dividend Rights

The preferred stock will be preferred over the common stock as to payment of dividends. Before any dividends or distributions (other than dividends or distributions payable in common stock or other stock ranking junior to that series of preferred stock as to dividends and upon liquidation) on the common stock or other stock ranking junior to that series of preferred stock as to dividends and upon liquidation shall be declared and set apart for payment or paid, the holders of shares of each series of preferred stock (unless otherwise set forth in the applicable prospectus supplement) will be entitled to receive dividends when, as and if declared by our board of directors or, if dividends are cumulative, full cumulative dividends for the current and all prior dividend periods. We will pay those dividends either in cash, shares of preferred stock, or otherwise, at the rate and on the date or

TABLE OF CONTENTS

dates set forth in the applicable prospectus supplement. With respect to each series of preferred stock that has cumulative dividends, the dividends on each share of the series will be cumulative from the date of issue of the share unless some other date is set forth in the prospectus supplement relating to the series. Accruals of dividends will not bear interest. The applicable prospectus supplement will indicate the relative ranking of the particular series of the preferred stock as to the payment of dividends, as compared with then-existing and future series of preferred stock.

Rights Upon Liquidation

The preferred stock of each series will be preferred over the common stock and other stock ranking junior to that series of preferred stock as to assets, so that the holders of that series of preferred stock (unless otherwise set forth in the applicable prospectus supplement) will be entitled to be paid, upon our voluntary or involuntary liquidation, dissolution or winding up, and before any distribution is made to the holders of common stock and other stock ranking junior to that series of preferred stock, the amount set forth in the applicable prospectus supplement. If upon any liquidation, dissolution or winding up, our net assets are insufficient to permit the payment in full of the respective amounts to which the holders of all outstanding preferred stock are entitled, our entire remaining net assets will be distributed among the holders of each series of preferred stock in amounts proportional to the full amounts to which the holders of each series are entitled, subject to the relative rankings of each series of preferred stock upon liquidation. The applicable prospectus supplement will indicate the relative ranking of the particular series of the preferred stock upon liquidation, as compared with then-existing and future series of preferred stock. Unless otherwise specified in a prospectus supplement for a series of preferred stock, after payment of the full amount of the liquidating distribution to which they are entitled, the holders of shares of preferred stock will not be entitled to any further participation in any distribution of our assets.

Conversion, Redemption or Exchange

The shares of a series of preferred stock will be convertible or exchangeable at the option of the holder of the preferred stock, redeemable at our option or at the option of the holder, as applicable, convertible or exchangeable at our option, into another security, in each case, to the extent set forth in the applicable prospectus supplement.

Voting Rights

The holders of each series or class of preferred stock we may issue will have no voting rights, except as required by law and as described below or in the applicable prospectus supplement. Our Board of Directors may, upon issuance of a series or class of preferred stock, grant voting rights to the holders of that series or class, which may be full or limited.

Without the affirmative vote of a majority of the shares of any class of preferred stock then outstanding, we may not:

- increase or decrease the aggregate number of authorized shares of that class;
- increase or decrease the par value of the shares of that class; or
- alter or change the powers, preferences or special rights of the shares of that class so as to affect them adversely.

If the amendment would adversely alter or change the powers, preferences or special rights of one or more series of a class of preferred stock, but not the entire class, then only the shares of the affected series will have the right to vote on the amendment.

Other

Our Certificate of Incorporation and our Bylaws and Delaware law contain certain provisions that may have the effect of delaying, deferring or preventing a takeover attempt that a holder of our preferred stock or depository shares might consider in its best interest, including those attempts that may result in a premium over the market price of those shares. See “Description of Common Stock—Anti-Takeover Effects of our Certificate of Incorporation and Bylaws and of Delaware Law.”

DESCRIPTION OF WARRANTS

We may issue warrants to purchase any combination of our debt securities, common stock, preferred stock or other securities. We may issue warrants independently or together with other securities. Warrants sold with other securities may be attached to or separate from the other securities. We will issue warrants under one or more warrant agreements between us and a warrant agent that we will name in the prospectus supplement.

The applicable prospectus supplement will include specific terms relating to the offering. We will file the form of any warrant agreement with the SEC, and you should read the warrant agreement for provisions that may be important to you. The prospectus supplement will include some or all of the following terms:

- the title of the warrants;
- the aggregate number of warrants offered;
- the designation, number and terms of the debt securities, common stock, preferred stock or other securities purchasable upon exercise of the warrants, and procedures by which the number of securities purchasable may be adjusted;
- the exercise price of the warrants;
- the dates or periods during which the warrants are exercisable;
- the designation and terms of any securities with which the warrants are issued;
- if the warrants are issued as a unit with another security, the date, if any, on and after which the warrants and the other security will be separately transferable;

DESCRIPTION OF DEPOSITARY SHARES

The following description of the terms of the depositary shares sets forth certain general terms and provisions of the depositary shares to which any prospectus supplement may relate. The particular terms of the depositary shares offered by any prospectus supplement and the extent, if any, to which these general provisions may apply to those depositary shares will be described in the prospectus supplement relating to those depositary shares. Accordingly, for a description of the terms of a particular issue of depositary shares, reference must be made to both the prospectus supplement relating thereto and to the following description.

General

We may, at our option, elect to offer shares of preferred stock represented by depositary shares. The shares of any series of the preferred stock underlying the depositary shares will be deposited under a separate deposit agreement between us and one or more depositaries selected by us, who we will name in the prospectus supplement.

Subject to the terms of the deposit agreement, each holder of a depositary share will be entitled, proportionately, to all the rights, preferences and privileges of the preferred stock represented by that depositary share, including dividend, voting, redemption, conversion, exchange and liquidation rights. The depositary shares will be evidenced by depositary receipts issued under the deposit agreement. Each receipt will represent the applicable interest in a number of shares of a particular series of the preferred stock, which we will describe in the prospectus supplement.

A holder of depositary shares will be entitled to receive the whole number of shares of preferred stock underlying those depositary shares. Holders will not be entitled to receive fractional shares. If the depositary receipts delivered by the holder evidence a number of depositary shares in excess of the whole number of shares to be withdrawn, the depositary will deliver to that holder at the same time a new depositary receipt for the excess number of depositary shares.

**DESCRIPTION OF STOCK PURCHASE CONTRACTS
AND STOCK PURCHASE UNITS**

We may issue stock purchase contracts, including contracts obligating holders to purchase from us, and us to sell to the holders, or for us to issue in exchange for other securities, a specified number of shares of our common stock or preferred stock (or a range of numbers of shares in accordance with a predetermined formula) at a future date or dates or upon the occurrence of specified events. The price per share of common stock or preferred stock may be fixed at the time the stock purchase contracts are issued or may be determined by reference to a specific formula set forth in the stock purchase contracts.

We may issue the stock purchase contracts separately or as a part of units, often known as stock purchase units, consisting of a stock purchase contract and any combination of our senior debt securities or subordinated debt securities or any other security registered under this registration statement as described in the applicable prospectus supplement, securing the holder's obligations to purchase the common stock or preferred stock under the stock purchase contracts.

The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase units or vice versa, and those payments may be unsecured or prefunded on some basis. The stock purchase contracts may require holders to secure their obligations in a specified manner, and in specified circumstances, we may deliver newly issued prepaid stock purchase contracts, often known as prepaid securities, upon release to a holder of any collateral securing that holder's obligations under the original stock purchase contract.

The applicable prospectus supplement will describe the terms of any stock purchase contracts or stock purchase units and, if applicable, prepaid securities. That description will not be complete. For more information, you should review the stock purchase contracts and, if applicable, the collateral arrangements and depositary arrangements relating to those stock purchase contracts or stock purchase units and any prepaid securities and the document under which the prepaid securities will be issued. We will file forms of these documents with the SEC before we issue any stock purchase contracts or stock purchase units and, if applicable, prepaid securities.

DESCRIPTION OF UNITS

As specified in the applicable prospectus supplement, we may issue units comprised of two or more of the other securities described in this prospectus in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The applicable prospectus supplement will describe:

- the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances the securities comprising the units may be held or transferred separately;
- a description of the terms of any unit agreement governing the units;
- a description of the provisions for the payment, settlement, transfer or exchange of the units; and
- whether the units will be issued in fully registered or global form.

The unit agreement, together with the terms of the underlying securities, will be filed with the SEC in connection with the offering of the specific units.

PLAN OF DISTRIBUTION

We may sell the securities in and outside the United States through underwriters or dealers, directly to purchasers, through agents or a combination of these methods.

Sale Through Underwriters or Dealers

If we use underwriters in the sale of securities, the underwriters will acquire the securities for their own account. The underwriters may resell the securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Underwriters may offer securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Unless we inform you otherwise in a prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to conditions, and the underwriters will be obligated to purchase all the securities if they purchase any of them. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers.

During and after an offering through underwriters, the underwriters may purchase and sell the securities in the open market. These transactions may include overallocation and stabilizing transactions and purchases to cover syndicate short positions created in connection with the offering. The underwriters may also impose a penalty bid, whereby selling concessions allowed to syndicate members or other broker-dealers for the offered securities sold for their account may be reclaimed by the syndicate if such offered securities are repurchased by the syndicate in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the offered securities, which may be higher than the price that might otherwise prevail in the open market. If commenced, these activities may be discontinued at any time.

If we use dealers in the sale of securities, we will sell the securities to them as principals. They may then resell those securities to the public at varying prices determined by the dealers at the time of resale. The dealers participating in any sale of the securities may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities. We will include in the prospectus supplement the names of the dealers and the terms of the transaction.

Direct Sales and Sales Through Agents

We may sell the securities directly. In that event, no underwriters or agents would be involved. We may also sell the securities through agents we designate from time to time. In a prospectus supplement, we will name any agent involved in the offer or sale of the securities, and we will describe any commissions payable by us to the agent. Unless we inform you otherwise in such prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment.

We may sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities. We will describe the terms of any such sales in a prospectus supplement.

Delayed Delivery Contracts

If we so indicate in a prospectus supplement, we may authorize agents, underwriters or dealers to solicit offers from certain types of institutions to purchase securities from us at the public offering price under delayed delivery contracts. These contracts would provide for payment and delivery on a specified date in the future. The contracts would be subject only to those conditions described in such prospectus supplement. Such prospectus supplement will describe the commission payable for solicitation of those contracts.

General Information

We may have agreements with the agents, dealers and underwriters to indemnify them against civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments that the agents, dealers or underwriters may be required to make. Agents, dealers and underwriters may engage in transactions with us or perform services for us in the ordinary course of their businesses.

LEGAL MATTERS

Unless otherwise indicated in the applicable prospectus supplement, the validity of the securities offered under this prospectus will be passed upon for us by Cravath, Swaine & Moore LLP, New York, New York. Additional legal matters may be passed on for us, or any underwriters, dealers or agents, by counsel we will name in the applicable prospectus supplement.
